NOTES ON NEWS OF THE DAY.

THE latest figures on the election in this state give the following majorities: Harrison and Morton, 12,295; Hill, 16,571; Jones, 11,736; Gray, 10,638.

CHAIRMAN BARNUM was still alive last night and had recovered consciousness. He was also able to take a little nourishment. The doctors could give but little encouragement.

IT is part of the political gossip of New York that 1,200 of the postoffice employes voted for Harrison. This may not have been a fine sample of Mugwump gratitude, but it proves to have been good politics.

THE only Republican vote cast in Elberton, Georgia, was by a young man named Patrick Henry. The Democrats were so indignant at the disgrace of their town that they seized him and gave him a public cowhiding.

IT is found that Admiral Porter was one of the committee of arrangements for the inaugural ball in 1841, when Gen. Wm. H. Harrison became President. Though the Admiral is now too old to dance, his name is going to grace the committee list again.

PRESIDENT CLEVELAND enjoys the confidence of every man, woman and child in this republic.—*Kingston Leader before the election.*

Electoral vote: Harrison, 239; Cleveland, 162. Republican majority in House of Representatives, 21.

THE American people are a people of good common sense. It does not take them long to discover and expose a humbug.—*Kingston Leader before the election.*

Electoral vote: Harrison, 239; Cleveland, 162. Republican majority in House of Representatives, 21.

MR. CLEVELAND has summoned Collector Magone of New York to Washington. He wishes to know why the man who has for four years enjoyed the fattest office in his gift could not find time to go to the polls last Tuesday.

GEN. HARRISON, when in the Senate, made a report as a member of the Committee on Territories in favor of the admission of Dakota as two states, the northern portion by the name of Lincoln. The Dakotans are as exuberant over Harrison's election as his neighbors in Indianapolis.

DELAWARE Democrats deny the story of a conspiracy to unseat a Republican State Senator and prevent the election of a Republican United States Senator. There was some talk of such a movement, but it has been abandoned because there would be no profit in viciously kicking against the party in power.

THE salaries paid to federal officials and employes in New York and Brooklyn aggregate over $5,000,000 per year. All this has been going to Democrats for four years. There is not a living Democrat who will ever get another chance at the federal treasury—not one. The Republicans have come back to stay.

TAMMANY wins 19 fat city offices by the election of Grant, all of which will be vacant after the 1st of May next. One of these pays a salary of $25,000 and fees; one, $12,000; five, $8,000 each; nine, $5,000 each; two, $4,000 each, and one, $3,000. It is not remembered that so many luscious plums ever before fell into one Mayor's lap.

THE Democrats are getting uneasy in regard to Senator Blodgett of New Jersey. When he was elected by the aid of Republican votes, it was generally understood that his Democracy was not sufficiently strong to make him ungrateful to his friends. Now it is feared that he will become a Republican Senator and dispense a portion of the federal patronage of New Jersey.

THREE more iron furnaces at Sharon, Pa., have raised the wages of their workmen. The advance is 15 cents a day. Such instances are getting common in every part of the North, and they go farther in answer to the free trade argument than all of the speeches and editorials ever printed. The workman can understand them without the help of a "campaign of intellect."

IN Birmingham, Ala., on election morning, a business man named Hillman bought $1,000 shares of Tennessee coal stock at 32. It has advanced to 36. Fred. Sloss, stove manufacturer, has contracted for a sixty-ton furnace, and other manufacturers have selected the sites for six new furnaces. The election of Harrison has boomed Birmingham. Iron is already selling at an advance of a dollar a ton.

EX-JUDGE RUCKER, a leading Democrat of Denver, asserts that Cleveland predicted defeat in his hearing October 27th. Among his reasons were: Hewitt was running for the purpose of beating him: Grant was absorbed in his own success; Tammany never liked him; Hill was too anxious to win also, and would trade him off. Rucker went straight home and gave the tip to his Democratic friends, who at once stopped betting.

THERE is no vindictiveness towards Canada among the earnest advocates of the rights of American fishermen. Senator Frye of Maine suggests that the way to settle the difficulty would be to ask Canada to name the privileges she wants in our ports, with the understanding that she accord the same to the United States in hers. This would not be retaliation, though Mr. Cleveland feared it would be asking too much of his Canadian supporters.

GREENE county gave 34 majority to Cleveland and Thurman, 51 to Lieut. Gov. Jones, and 181 to VanBergen, the Democratic nominee for County Clerk. But all the other majorities are on the Republican side. Here they are: Miller, Governor, 78; Rumsey, Appeals, 72; Knapp, Congress, 85; Walters, Assembly, 154; Sanderson, County Judge, 251; Stead, Sheriff, 203; Lacy, Superintendent of Poor, 54. Three Republican Coroners were elected. Now let Greene stand in the Republican column.

E. W. HALFORD, managing editor of the Indianapolis *Daily Journal*, who is evidently the coming Private Secretary of President-elect Harrison, has been upon the above paper for many years. Previous to that time he was editor of the Chicago *Inter-Ocean*. He is short in stature, a brainy man and good fellow. He rose from the "case," and by very hard labor got a collegiate education. He belongs to the Methodist church and has taken an active part in church work. Everybody in Indianapolis calls him "Lige Halford."

CITY OF MADRID NOW QUIET.

Authorities Have Issued an Order Prohibiting Street Assemblies—Fight With Horse Thieves in Indian Territory—Crimes, Etc.

By Telegraph to The Freeman.

NEW-YORK, Nov. 12.—The steamer Iberia, which was badly injured by collision with the steamer Umbria, has disappeared from the surface of the ocean. It seemed in no imminent danger of sinking when it was abandoned yesterday, but tug-boats searched the coast along Long Island, from Fire Island to Coney Island all night and could find no trace of it. They went down again this forenoon, but it is generally believed the Iberia has sunk. The Umbria again left port this forenoon fully recovered from the shock of the collision. The big hole in the bow was covered by a big iron plate.

The tug Indian this afternoon reports that the steamer Iberia sank last night off Long Beach at 9 o'clock.

FARMERS FIGHT HORSE THIEVES

Who Had Stolen All the Animals in Morton County, Indian Territory.

By Telegraph to The Freeman.

TOPEKA, Kans., Nov. 12.—Horse thieves are committing depredations in the Indian Territory. Twelve desperadoes, headed by the outlaw William Doty, stole 13 thoroughbred horses from Captain Milton, of Morton County. They visited every ranch in the County and took possession of every horse of value. When they reached the farm of James L. Horton he and his two sons showed fight, and with their guns made it very warm for the Doty crowd. The desperadoes were too much for them, however, and captured the men and tied them to a fence, where they were found four hours later by friends. The thieves secured 60 horses and started for Oklahoma. They had gone but a short distance when they were overtaken by a posse of Morton County farmers. A desperate fight ensued, during which George Hill, one of the thieves, was fatally wounded. Doty and his crowd were compelled to take flight, but managed to get away with 25 animals.

By Cable to The Freeman.

ROME, Nov. 12.—The *Escito Italiano* [War Office organ], in an article on the relations between France and Italy, signed by the editor, a high authority in military matters, says: "Both France and Italy, with perfect good faith, protest that they do not intend to make an attack. Nevertheless war is inevitable on the first occasion. France must sooner or later endeavor to break the iron band in which the unity of Germany and Italy has bound her. Let no one blame her for such an effort. Italy cannot do otherwise than continue in alliance with Germany, because the success of the French arms facilitated, Italian neutrality would soon be bitterly felt by Italy."

Signor Crispi, Minister of Foreign Affairs, has assured the French Charge D'Affairs that Italy would extend a cordial welcome to M. Marina, the new Ambassador of France.

Overcoat or Suit,

Would be a trifle perplexed in knowing where to safely make the purchase. Our mode of business is

"ONE PRICE."

Every garment is truthfully and plainly labeled, whether all wool or not and our styles and size of stock is equally as large and compare with the leading New-York houses.

Doing such an extensive business as we do, it affords us every opportunity of offering you reliable goods fully 20 per cent. lower than they can be purchased elsewhere.

Small houses may make the same brag, but don't you think dealing with a large and reliable one price house like ours, where you can find everything you ask for, a safer and cheaper place to deal?

Try us and be convinced.

NOTES ON NEWS OF THE DAY.

THE latest figures on the election in this state give the following majorities: Harrison and Morton, 12,295; Hill, 16,571; Jones, 11,736; Gray, 10,638.

CHAIRMAN BARNUM was still alive last night and had recovered consciousness. He was also able to take a little nourishment. The doctors could give but little encouragement.

IT is part of the political gossip of New York that 1,200 of the postoffice employes voted for Harrison. This may not have been a fine sample of Mugwump gratitude, but it proves to have been good politics.

THE only Republican vote cast in Elberton, Georgia, was by a young man named Patrick Henry. The Democrats were so indignant at the disgrace of their town that they seized him and gave him a public cowhiding.

IT is found that Admiral Porter was one of the committee of arrangements for the inaugural ball in 1841, when Gen. Wm. H. Harrison became President. Though the Admiral is now too old to dance, his name is going to grace the committee list again.

PRESIDENT CLEVELAND enjoys the confidence of every man, woman and child in this republic.—*Kingston Leader before the election.*

Electoral vote: Harrison, 239; Cleveland, 162. Republican majority in House of Representatives, 21.

THE American people are a people of good common sense. It does not take them long to discover and expose a humbug.—*Kingston Leader before the election.*

Electoral vote: Harrison, 239; Cleveland, 162. Republican majority in House of Representatives, 21.

MR. CLEVELAND has summoned Collector Magone of New York to Washington. He wishes to know why the man who has for four years enjoyed the fattest office in his gift could not find time to go to the polls last Tuesday.

GEN. HARRISON, when in the Senate, made a report as a member of the Committee on Territories in favor of the admission of Dakota as two states, the northern portion by the name of Lincoln. The Dakotans are as exuberant over Harrison's election as his neighbors in Indianapolis.

DELAWARE Democrats deny the story of a conspiracy to unseat a Republican State Senator and prevent the election of a Republican United States Senator. There was some talk of such a movement, but it has been abandoned because there would be no profit in viciously kicking against the party in power.

THE salaries paid to federal officials and employes in New York and Brooklyn aggregate over $5,000,000 per year. All this has been going to Democrats for four years. There is not a living Democrat who will ever get another chance at the federal treasury—not one. The Republicans have come back to stay.

TAMMANY wins 19 fat city offices by the election of Grant, all of which will be vacant after the 1st of May next. One of these pays a salary of $25,000 and fees; one, $12,000; five, $8,000 each; nine, $5,000 each; two, $4,000 each, and one, $3,000. It is not remembered that so many luscious plums ever before fell into one Mayor's lap.

THE Democrats are getting uneasy in regard to Senator Blodgett of New Jersey. When he was elected by the aid of Republican votes, it was generally understood that his Democracy was not sufficiently strong to make him ungrateful to his friends. Now it is feared that he will become a Republican Senator and dispense a portion of the federal patronage of New Jersey.

THREE more iron furnaces at Sharon, Pa., have raised the wages of their workmen. The advance is 15 cents a day. Such instances are getting common in every part of the North, and they go farther in answer to the free trade argument than all of the speeches and editorials ever printed. The workman can understand them without the help of a "campaign of intellect."

IN Birmingham, Ala., on election morning, a business man named Hillman bought $1,000 shares of Tennessee coal stock at 32. It has advanced to 36. Fred. Sloss, stove manufacturer, has contracted for a sixty-ton furnace, and other manufacturers have selected the sites for six new furnaces. The election of Harrison has boomed Birmingham. Iron is already selling at an advance of a dollar a ton.

EX-JUDGE RUCKER, a leading Democrat of Denver, asserts that Cleveland predicted defeat in his hearing October 27th. Among his reasons were: Hewitt was running for the purpose of beating him: Grant was absorbed in his own success; Tammany never liked him; Hill was too anxious to win also, and would trade him off. Rucker went straight home and gave the tip to his Democratic friends, who at once stopped betting.

THERE is no vindictiveness towards Canada among the earnest advocates of the rights of American fishermen. Senator Frye of Maine suggests that the way to settle the difficulty would be to ask Canada to name the privileges she wants in our ports, with the understanding that she accord the same to the United States in hers. This would not be retaliation, though Mr. Cleveland feared it would be asking too much of his Canadian supporters.

GREENE county gave 34 majority to Cleveland and Thurman, 51 to Lieut. Gov. Jones, and 181 to VanBergen, the Democratic nominee for County Clerk. But all the other majorities are on the Republican side. Here they are: Miller, Governor, 78; Rumsey, Appeals, 72; Knapp, Congress, 85; Walters, Assembly, 154; Sanderson, County Judge, 251; Stead, Sheriff, 208; Lacy, Superintendent of Poor, 54. Three Republican Coroners were elected. Now let Greene stand in the Republican column.

E. W. HALFORD, managing editor of the Indianapolis *Daily Journal*, who is evidently the coming Private Secretary of President-elect Harrison, has been upon the above paper for many years. Previous to that time he was editor of the Chicago *Inter-Ocean*. He is short in stature, a brainy man and good fellow. He rose from the "case," and by very hard labor got a collegiate education. He belongs to the Methodist church and has taken an active part in church work. Everybody in Indianapolis calls him "Lige Halford."

CITY OF MADRID NOW QUIET.

Authorities Have Issued an Order Prohibiting Street Assemblies—Fight With Horse Thieves in Indian Territory—Crimes, Etc.

By Telegraph to The Freeman.

NEW-YORK, Nov. 12.—The steamer Iberia, which was badly injured by collision with the steamer Umbria, has disappeared from the surface of the ocean. It seemed in no imminent danger of sinking when it was abandoned yesterday, but tug-boats searched the coast along Long Island, from Fire Island to Coney Island all night and could find no trace of it. They went down again this forenoon, but it is generally believed the Iberia has sunk. The Umbria again left port this forenoon fully recovered from the shock of the collision. The big hole in the bow was covered by a big iron plate.

The tug Indian this afternoon reports that the steamer Iberia sank last night off Long Beach at 9 o'clock.

FARMERS FIGHT HORSE THIEVES

Who Had Stolen All the Animals in Morton County, Indian Territory.

By Telegraph to The Freeman.

TOPEKA, Kans., Nov. 12.—Horse thieves are committing depredations in the Indian Territory. Twelve desperadoes, headed by the outlaw William Doty, stole 13 thoroughbred horses from Captain Milton, of Morton County. They visited every ranch in the County and took possession of every horse of value. When they reached the farm of James L. Horton he and his two sons showed fight, and with their guns made it very warm for the Doty crowd. The desperadoes were too much for them, however, and captured the men and tied them to a fence, where they were found four hours later by friends. The thieves secured 60 horses and started for Oklahoma. They had gone but a short distance when they were overtaken by a posse of Morton County farmers. A desperate fight ensued, during which George Hill, one of the thieves, was fatally wounded. Doty and his crowd were compelled to take flight, but managed to get away with 25 animals.

By Cable to The Freeman.

ROME, Nov. 12.—The *Esecito Italiano* [War Office organ], in an article on the relations between France and Italy, signed by the editor, a high authority in military matters, says: "Both France and Italy, with perfect good faith, protest that they do not intend to make an attack. Nevertheless war is inevitable on the first occasion. France must sooner or later endeavor to break the iron band in which the unity of Germany and Italy has bound her. Let no one blame her for such an effort. Italy cannot do otherwise than continue in alliance with Germany, because the success of the French arms facilitated, Italian neutrality would soon be bitterly felt by Italy."

A person reading clothing advertisements in anticipation of purchasing an

Overcoat or Suit,

Would be a trifle perplexed in knowing where to safely make the purchase. Our mode of business is

"ONE PRICE."

Doing such an extensive business as we do, it affords us every opportunity of offering you reliable goods fully 20 per cent. lower than they can be purchased elsewhere.

Small houses may make the same brag, but don't you think dealing with a large and reliable one price house like ours, where you can find everything you ask for, a safer and cheaper place to deal?

THE FUTURE OF THE REPUBLIC.

The *Sun* reproduces the interview with Senator Ingalls of Kansas, which it first published early in October, on the coming greatness of the American republic. The Senator's views have grown greatly in value by the election, which has settled several questions vital to the growth and destiny of the nation for at least a quarter of a century, and probably for all time. Hence they will be received with an interest which could not possibly attach to them a month ago, when a general impression prevailed that the re-election of President Cleveland was possible and even probable.

The Senator began by quoting Stephen A. Douglas's memorable expression, "an ocean bound republic." He said the idea was as old as Jamestown and Plymouth. It was the cargo of the Mayflower. Obedient to its impulse, the column of Anglo-Saxon migration has marched across the continent, expelled the Indian, the Frenchman, the Spaniard and the Chinese, and now pauses on the coast of the Pacific. Having abolished the Western frontier, it will now move toward the pole and the equator. We have reached the limit of arable land, and in ten years the homestead system will be extinct. The pressure of surplus population will soon absorb Mexico and Canada, and possibly the West Indies. We have paid duties enough on sugar in the past thirty years to have purchased Cuba from Spain three times over. Besides, the surplus African population will require an outlet toward the torrid zone before the close of the century. The Senator holds that the whites and blacks of the South will not assimilate, and hence there will be an eventual separation, the negroes establishing states of their own in the tropics. "We have now a continuous line of railway to Mexico. It will soon be continued to the valley of the Amazon. Vestibuled trains will run through without change from New York to Buenos Ayres. Along this line the Anglo-Saxon race will move to the domination of the hemisphere."

The process of absorption, in the Senator's opinion, will begin with Canada. He looks upon Canada as already practically American, in full sympathy with the United States. He regards the policy of retaliation as impossible, because neither the United States nor Canada desires to be offensive. But England he regards as the enemy of both. We quote:

The umbilical cord between England and Canada was long since severed. The autonomy of the Dominion is complete. The intrusion of England in the policies of this continent is an intolerable impertinence. It is dictated by deliberate hostility to the United States. It is a studied affront which our people understand and will ultimately resent. Talk as we may about kindred blood, and the language of Milton and Shakespeare, there is not an American who does not feel instinctively that England is the only enemy we have among the nations, and sooner or later we shall be compelled by self-respect, if not for self-preservation, to obliterate every vestige of British power from this hemisphere. There is no alternative. The guns of Halifax and Vancouver are pointed at us. The Canadian Pacific Railroad, built by England's subsidies, makes our northern frontier more vulnerable than our seacoast. Great Britain, jealous of our supremacy, is inexorably opposed to our territorial expansion toward the pole and the equator. Her circumvallation is complete. Her navy stations and fortresses menace us from every point of the compass. From the close of the Revolution till now her conduct toward us has been characterized by treachery, duplicity, and insult in peace, and by brutal ferocity in war. Left to the operation of social, industrial, and commercial forces, Canada would irresistibly gravitate into the American Union. The ultimate coalition is inevitable. It may be violent and compulsory. If British men-of-war continue to haul down the flags of American fishermen without protest in waters of which England has practically no more jurisdiction than the United States have in the Mersey or the Thames, the issue will pass beyond diplomacy, and our volunteers will march on Montreal and Quebec and take possession of the Canadian Pacific and the St. Lawrence. The chief political obstacle would be found in the fact that Canada would naturally be Republican. Wheat was raised last year in the valley of Peace River, a thousand miles north of St. Paul. The great arable plains and rich intervales would attract populations like that of Dakota, incapable of adopting Democratic heresies.

These words were uttered before the election, when the Democratic party loomed up as an insurmountable obstacle. That obstacle is now overcome. Mr. Cleveland in the quiet of his retirement from political activity, will read these prophesies of national greatness, and perhaps regret that he did not begin with the acquisition of Cuba, which could have been paid for out of the treasury surplus, and would have created a reliably Democratic state with the area and population of Tennessee. It is now too late; Cuba must come in, if at all, with a Northern state or two to balance her politically. But there is one truth which every wide-awake statesman ought to make a note of. Territorial absorption is going to be an attractive issue with the American people so long as there are within convenient reach great states of similar language and people, or whose climate, soil and productions would sufficiently attract the people of the United States to bring them within a reasonable time under the domination of American ideas.

THE VICTORY AND THE CENSUS.

In estimating the benefits to the country of the sweeping Republican victory of Tuesday last, the fact is not to be lost sight of that the federal census is to be taken in 1890. It will be taken under Republican direction. The census of 1880 was under the direction of Gen. Francis A. Walker, a professed Republican, but a rabid free trader who afterwards developed into a Mugwump. The honesty of that census has always been suspected, for the reason that it gave to the South a greater per centage of the increase than to the North. South Carolina gained more than New York, Texas more than Minnesota, and Arkansas more than New Jersey. Rural states of the South, desolated by the war, and several of which did not contain a single town of sufficient size to raise it to the dignity of a city at the North, were accorded a larger population, and hence a greater proportionate representation in Congress and the Electoral College, than some Northern states which had doubled and trebled their manufacturing capacity during the preceding decade. This fraud alone sufficed to elect a Democratic President in 1884 and to give the South control of the House for six years.

All of this is to be changed. The census to be taken in 1890 will be under Republican direction. Each state will be given credit for its entire population, but nothing more. The wrong inflicted upon the country by giving the Solid South, or less than one-third of the Union, an increase of 15 members in a total increase of 32 will be made right. The great Northwest has been growing rapidly, while the old Bourbon states have stood still. The census will change the proportionate representation of the North and South by at least ten votes in favor of the former.

This change is to take place in the existing states, and chiefly in states like Kansas, Nebraska, California, Iowa and Oregon—states so solidly Republican that it would be impossible to gerrymander a Democratic district out of them. To this is to be added the representation in both Houses of Congress and the Electoral College from at least seven new states, equally solid in their Republicanism. The census will be completed in 1890, and the new apportionment will be made by the fifty-first Congress, already elected, in the session of 1890–91. It is not to go over and be left to the chances of a new Congressional election in 1890.

If the Republicans can hold their present majority of 20 or more in the coming House from the existing districts, the accessions by a new apportionment, by gains in the new South and by the admission of new states, will carry that majority up to 60 in the fifty-second Congress. If it can hold New York in the next Presidential election the Republican successor of Benjamin Harrison can be reasonably assured of a two-thirds majority in the Electoral College. The new states will of course give the Senate to the Republicans by an overwhelming majority. And these new states, added to those which now elect Republican Legislatures, will make possible some very necessary amendments to the constitution. It is possible, especially, that Article 14, Section 2, can be made clearer than it is. If the colored people of the South are not allowed to vote, it is important that the basis of representation should be reduced by excluding the entire colored population, or else by basing representation upon the vote cast, instead of upon the census.

AN EFFECT OF THE ELECTION.

Wages in the iron works at Sharon, Pa., have been raised ten cents a day since election. Sanford's carpet works at Amsterdam, which had been closed for three months, have started up on full time, and 2,000 hands are called back to work. Preparations are being made for starting up the blast furnaces in Hocking Valley, Ohio, which were all closed immediately after Cleveland sent his free trade message to Congress in December. The capital thus locked up for nearly a year amounts to $1,500,000. Business is starting up all over the country.

THERE IS FUN IN THE LAND.

The New York Sun Quotes From the Cyclopedia for Mr. Cleveland's Consolation.

The New York *Sun* of this morning gets back upon Mr. Cleveland for making up his "swing-around-the-circle" speeches from Mr. Dana's Cyclopedia a year ago. There is enough appositeness in these selections to cause even a Democrat to smile. The heading over them is "Select Readings for the Hour," and they are given the post of honor at the top of the *Sun's* editorial column:

The entire layer of adipose tissue beneath the skin and elsewhere acts as a protection to the animal warmth. Being to a great extent a non-conductor, it is a kind of natural blanket, which prevents the dissipation of the heat of the internal organs, and thus serves to maintain their temperature. An abundant layer of adipose tissue is accordingly an effective protection against external cold.—*The American Cyclopedia, Vol. I., page 120.*

Immediately after the inauguration of Mr. Lincoln, March 4, 1861, Mr. Buchanan retired to his home at Lancaster, Pa., where he passed the remainder of his life, taking no part in public affairs.—*The American Cyclopedia, Vol. III., page 382.*

The rhythm of evolution and dissolution completing itself during short periods in small aggregates, and, in the vast aggregates distributed through space, completing itself in periods which are immeasurable by human thought, is as far as we can see universal and eternal; each alternating phase of the process predominating now in this region of space and now in that, as local conditions determine.—*The American Cyclopedia, Vol. VII., page 17.*

Mr. Fillmore afterward resided in Buffalo, taking no prominent part in public affairs.—*The American Cyclopedia, Vol. VII., page 188.*

Persons who have an unusual tendency to fat should combine with other exercise running, jumping on the spring board, and movements which shake the body. These favor the absorption of unnecessary adipose tissue, especially in the covering of the abdominal organs.—*The American Cyclopedia, Vol. VIII., page 355.*

On March 4, 1825, Monroe retired from office, and returned to his residence of Oak Hill, in Loudon county, Va. He was chosen a Justice of the Peace, and sat in the county court.—*The American Cyclopedia, Vol. XI., page 763.*

Immediately on the expiration of his term of office he left Washington, without even stopping to be present at the inauguration of Jefferson, against whom he felt a sense of personal wrong, probably thinking that he had been deluded by false professions as to Jefferson's views on the Presidential chair. Fortunately for Adams, his thrifty habits, sustained by the economical and managing talents of his wife, had enabled him to add to the savings from his profession before entering public life, savings from his salaries enough to support him for the rest of his life in a style of decent propriety. All considerations, domestic or otherwise, at Mr. Adams's command, were fully needed. Never did a statesman sink more suddenly, at a time when his powers of action and inclination for it seemed wholly unimpaired, from a leading position to mere absolute political insignificance. His grandson tells us that while the letters addressed to him in the year prior to March 1, 1801, may be counted by thousands, those of the next year scarcely number a hundred, while he wrote even fewer than he received. Nor was mere neglect the worst of it. He sank, loaded with the gibes, the sneers, the execrations even of both political parties into which the nation was divided. A large portion of the most active leaders of the Federal party were disposed to hold Adams personally answerable both for the breach in their ranks and for their subsequent overthrow.—*The American Cyclopedia, Vol. I., page 93.*

In the United States of America there has never been a censorship of the press.—*The American Cyclopedia, Vol, IV., page 192.*

Much unnecessary anxiety is sometimes felt with regard to the possibility of persons supposed to be dead, being buried while really living. The premature burial of a living person must be, if it happen at all, the result of inexcusable haste or carelessness, and is in the highest degree improbable when ever the ordinary precautions are taken. A proper examination of the body by a competent medical man, in doubtful cases, would render such a mistake almost impossible.—*The American Cyclopedia, Vol, III., page 454.*

COMMON SENSE

Should be used in attempting to cure that very disagreeable disease, catarrh. A catarrh originates in impurities in the blood, local applications can do no permanent good. The common-sense method of treatment is to purify the blood, and for this purpose there is no preparation superior to Hood's Sarsaparilla. That this peculiar medicine does cure catarrh is shown by the many testimonials from people who have found relief upon using it when all others had failed. A book containing statements of cures sent on receipt of two-sent stamp, by C. I. Hood & Co., Lowell, Mass.

I have been a sufferer from catarrh for the past eight years. Having tried a number of remedies advertised as "sure cures" without obtaining any relief, I had resolved never to take any other patent medicines, when a friend advised me to try Ely's Cream Balm. I did so with great reluctance, but can now testify with pleasure that after using it for six weeks I believe myself cured. It is a most agreeable remedy—an invaluable Balm.—Joseph Stewart, 624 Grand-avenue, Brooklyn.

DON'T DESPAIR.

If you are weak and weary from some so-called chronic disease, don't give up. Sulphur Bitters has given hope to many invalids, where hitherto there was nothing but despair. It will build up and renew your whole system.—Editor Weekly American.

THE REV. GEO. H. THAYER, of Bourbon, Ind. says: "Both myself and wife owe our lives to SHILOH'S CONSUMPTION CURE." Sold by Frederick J. R. Clark.

INSTINCT IN BRUTES.

Few things are more wonderful than the instinct that guides the brute in the choice of its food and medicine. In India the mungoose, when bitten by the deadly cobra, is said to seek among the grass for some unknown herb or substance, which it swallows, and is thereby enable to counteract the effect of the poison. Man, when his system is deranged by the accumulated poisons engendered by constipation or sluggish action of body, should seek relief in Dr. Pierce's Pleasant Pellets, which will at once establish a permanently healthy action of the liver, stomach and bowels.

SICK WIVES AND DAUGHTERS.

You have often seen them with pale faces, poor appetite, head and back ache, symptoms common to the sex. Fathers and mothers lose no time in securing Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y.

It will cost only one dollar and is much cheaper than sickness.

If your druggist does not keep the medicine, address the proprietor, Rondout, N. Y.

Do you suffer with catarrh? You can be cured if you take Hood's Sarsaparilla, the great blood purifier. Sold by all druggists.

SALLOW WOMEN.

The Terrible Cause of Poor Complexion, Bad Health and Lack of Life Explained.

"Why is it that so few American women have good complexions?" asked Mrs. Langtry on her first visit to America. Her question can be easily answered. Women are sallow because the blood does not circulate well through their bodies. It does not fill their cheeks with rich color and their eyes with brilliancy. It is "sluggish." What is the result? Bad color, weariness and poor health. What will prevent this? A gentle and pure stimulant that imparts strength, life and good circulation. This is precisely what Duffy's Pure Malt Whiskey does. It is not a beverage it is a health-giving remedy. It is admitted to have done more in making ladies stronger and healthier than any other preparation known to the world. It has the endorsement of clergymen, physicians and lady workers in the temperance cause, and it has never been known to fail in strengthening, restoring and benefiting. A well known lady, writing on this subject, said:

"I can never describe the change that has taken place in my appearance and in my feelings. Instead of feeling tired an 'blue' as I once did, I am now strong and young, both in feeling and appearance. I had a great prejudice against the word 'Whiskey,' but since I have found that Duffy's is indeed a pure and harmless remedy, I feel like letting all women know what a grand help it is."

The experience of this lady has been verified in thousands of cases, and an innumerable number of women are kept in perfect health to-day wholly through this great remedy. To all purchasers we desire to say: "be sure and secure the genuine, and take no other." It is sold everywhere.

THE FUTURE OF THE REPUBLIC.

The *Sun* reproduces the interview with Senator Ingalls of Kansas, which it first published early in October, on the coming greatness of the American republic. The Senator's views have grown greatly in value by the election, which has settled several questions vital to the growth and destiny of the nation for at least a quarter of a century, and probably for all time. Hence they will be received with an interest which could not possibly attach to them a month ago, when a general impression prevailed that the re-election of President Cleveland was possible and even probable.

The Senator began by quoting Stephen A. Douglas's memorable expression, "an ocean bound republic." He said the idea was as old as Jamestown and Plymouth. It was the cargo of the Mayflower. Obedient to its impulse, the column of Anglo-Saxon migration has marched across the continent, expelled the Indian, the Frenchman, the Spaniard and the Chinese, and now pauses on the coast of the Pacific. Having abolished the Western frontier, it will now move toward the pole and the equator. We have reached the limit of arable land, and in ten years the homestead system will be extinct. The pressure of surplus population will soon absorb Mexico and Canada, and possibly the West Indies. We have paid duties enough on sugar in the past thirty years to have purchased Cuba from Spain three times over. Besides, the surplus African population will require an outlet toward the torrid zone before the close of the century. The Senator holds that the whites and blacks of the South will not assimilate, and hence there will be an eventual separation, the negroes establishing states of their own in the tropics. "We have now a continuous line of railway to Mexico. It will soon be continued to the valley of the Amazon. Vestibuled trains will run through without change from New York to Buenos Ayres. Along this line the Anglo-Saxon race will move to the domination of the hemisphere."

The process of absorption, in the Senator's opinion, will begin with Canada. He looks upon Canada as already practically American, in full sympathy with the United States. He regards the policy of retaliation as impossible, because neither the United States nor Canada desires to be offensive. But England he regards as the enemy of both. We quote:

The umbilical cord between England and Canada was long since severed. The autonomy of the Dominion is complete. The intrusion of England in the policies of this continent is an intolerable impertinence. It is dictated by deliberate hostility to the United States. It is a studied affront which our people understand and will ultimately resent. Talk as we may about kindred blood, and the language of Milton and Shakespeare, there is not an American who does not feel instinctively that England is the only enemy we have among the nations, and sooner or later we shall be compelled by self-respect, if not for self-preservation, to obliterate every vestige of British power from this hemisphere. There is no alternative. The guns of Halifax and Vancouver are pointed at us. The Canadian Pacific Railroad, built by England's subsidies, makes our northern frontier more vulnerable than our seacoast. Great Britain, jealous of our supremacy, is inexorably opposed to our territorial expansion toward the pole and the equator. Her circumvallation is complete. Her navy stations and fortresses menace us from every point of the compass. From the close of the Revolution till now her conduct toward us has been characterized by treachery, duplicity, and insult in peace, and by brutal ferocity in war. Left to the operation of social, industrial, and commercial forces, Canada would irresistibly gravitate into the American Union. The ultimate coalition is inevitable. It may be violent and compulsory. If British men-of-war continue to haul down the flags of American fishermen without protest in waters of which England has practically no more jurisdiction than the United States have in the Mersey or the Thames, the issue will pass beyond diplomacy, and our volunteers will march on Montreal and Quebec and take possession of the Canadian Pacific and the St. Lawrence. The chief political obstacle would be found in the fact that Canada would naturally be Republican. Wheat was raised last year in the valley of Peace River, a thousand miles north of St. Paul. The great arable plains and rich intervales would attract populations like that of Dakota, incapable of adopting Democratic heresies.

These words were uttered before the election, when the Democratic party loomed up as an insurmountable obstacle. That obstacle is now overcome. Mr. Cleveland in the quiet of his retirement from political activity, will read these prophesies of national greatness, and perhaps regret that he did not begin with the acquisition of Cuba, which would have been paid for out of the treasury surplus, and would have created a reliably Democratic state with the area and population of Tennessee. It is now too late; Cuba must come in, if at all, with a Northern state or two to balance her politically. But there is one truth which every wide-awake statesman ought to make a note of. Territorial absorption is going to be an attractive issue with the American people so long as there are within convenient reach great states of similar language and people, or whose climate, soil and productions would sufficiently attract the people of the United States to bring them within a reasonable time under the domination of American ideas.

THE VICTORY AND THE CENSUS.

In estimating the benefits to the country of the sweeping Republican victory of Tuesday last, the fact is not to be lost sight of that the federal census is to be taken in 1890. It will be taken under Republican direction. The census of 1880 was under the direction of Gen. Francis A. Walker, a professed Republican, but a rabid free trader who afterwards developed into a Mugwump. The honesty of that census has always been suspected, for the reason that it gave to the South a greater per centage of the increase than to the North. South Carolina gained more than New York, Texas more than Minnesota, and Arkansas more than New Jersey. Rural states of the South, desolated by the war, and several of which did not contain a single town of sufficient size to raise it to the dignity of a city at the North, were accorded a larger population, and hence a greater proportionate representation in Congress and the Electoral College, than some Northern states which had doubled and trebled their manufacturing capacity during the preceding decade. This fraud alone sufficed to elect a Democratic President in 1884 and to give the South control of the House for six years.

All of this is to be changed. The census to be taken in 1890 will be under Republican direction. Each state will be given credit for its entire population, but nothing more. The wrong inflicted upon the country by giving the Solid South, or less than one-third of the Union, an increase of 15 members in a total increase of 32 will be made right. The great Northwest has been growing rapidly, while the old Bourbon states have stood still. The census will change the proportionate representation of the North and South by at least ten votes in favor of the former.

This change is to take place in the existing states, and chiefly in states like Kansas, Nebraska, California, Iowa and Oregon—states so solidly Republican that it would be impossible to gerrymander a Democratic district out of them. To this is to be added the representation in both Houses of Congress and the Electoral College from at least seven new states, equally solid in their Republicanism. The census will be completed in 1890, and the new apportionment will be made by the fifty-first Congress, already elected, in the session of 1890–91. It is not to go over and be left to the chances of a new Congressional election in 1890.

If the Republicans can hold their present majority of 20 or more in the coming House from the existing districts, the accessions by a new apportionment, by gains in the new South and by the admission of new states, will carry that majority up to 60 in the fifty-second Congress. If it can hold New York in the next Presidential election the Republican successor of Benjamin Harrison can be reasonably assured of a two-thirds majority in the Electoral College. The new states will of course give the Senate to the Republicans by an overwhelming majority. And these new states, added to those which now elect Republican Legislatures, will make possible some very necessary amendments to the constitution. It is possible, especially, that Article 14, Section 2, can be made clearer than it is. If the colored people of the South are not allowed to vote, it is important that the basis of representation should be reduced by excluding the entire colored population, or else by basing representation upon the vote cast, instead of upon the census.

AN EFFECT OF THE ELECTION.

Wages in the iron works at Sharon, Pa., have been raised ten cents a day since election. Sanford's carpet works at Amsterdam, which had been closed for three months, have started up on full time, and 2,000 hands are called back to work. Preparations are being made for starting up the blast furnaces in Hocking Valley, Ohio, which were all closed immediately after Cleveland sent his free trade message to Congress in December. The capital thus locked up for nearly a year amounts to $1,500,000. Business is starting up all over the country.

THERE IS FUN IN THE LAND.

The New York Sun Quotes From the Cyclopedia for Mr. Cleveland's Consolation.

The New York *Sun* of this morning gets back upon Mr. Cleveland for making up his "swing-around-the-circle" speeches from Mr. Dana's Cyclopedia a year ago. There is enough appositeness in these selections to cause even a Democrat to smile. The heading over them is "Select Readings for the Hour," and they are given the post of honor at the top of the *Sun's* editorial column:

The entire layer of adipose tissue beneath the skin and elsewhere acts as a protection to the animal warmth. Being to a great extent a non-conductor, it is a kind of natural blanket, which prevents the dissipation of the heat of the internal organs, and thus serves to maintain their temperature. An abundant layer of adipose tissue is accordingly an effective protection against external cold.—*The American Cyclopedia, Vol. I., page 120.*

Immediately after the inauguration of Mr. Lincoln, March 4, 1861, Mr. Buchanan retired to his home at Lancaster, Pa., where he passed the remainder of his life, taking no part in public affairs.—*The American Cyclopedia, Vol. III., page 382.*

The rhythm of evolution and dissolution completing itself during short periods in small aggregates, and, in the vast aggregates distributed through space, completing itself in periods which are immeasurable by human thought, is as far as we can see universal and eternal; each alternating phase of the process predominating now in this region of space and now in that, as local conditions determine.—*The American Cyclopedia, Vol. VII., page 17.*

Mr. Fillmore afterward resided in Buffalo, taking no prominent part in public affairs.—*The American Cyclopedia, Vol. VII., page 188.*

Persons who have an unusual tendency to fat should combine with other exercise running, jumping on the spring board, and movements which shake the body. These favor the absorption of unnecessary adipose tissue, especially in the covering of the abdominal organs.—*The American Cyclopedia, Vol. VIII., page 355.*

On March 4, 1825, Monroe retired from office, and returned to his residence of Oak Hill, in Loudon county, Va. He was chosen a Justice of the Peace, and sat in the county court.—*The American Cyclopedia, Vol. XI., page 763.*

Immediately on the expiration of his term of office he left Washington, without even stopping to be present at the inauguration of Jefferson, against whom he felt a sense of personal wrong, probably thinking that he had been deluded by false professions as to Jefferson's views on the Presidential chair. Fortunately for Adams, his thrifty habits, sustained by the economical and managing talents of his wife, had enabled him to add to the savings from his profession before entering public life, savings from his salaries enough to support him for the rest of his life in a style of decent propriety. All considerations, domestic or otherwise, at Mr. Adams's command, were fully needed. Never did a statesman sink more suddenly, at a time when his powers of action and inclination for it seemed wholly unimpaired, from a leading position to mere absolute political insignificance. His grandson tells us that while the letters addressed to him in the year prior to March 1, 1801, may be counted by thousands, those of the next year scarcely number a hundred, while he wrote even fewer than he received. Nor was mere neglect the worst of it. He sank, loaded with the gibes, the sneers, the execrations even of both political parties into which the nation was divided. A large portion of the most active leaders of the Federal party were disposed to hold Adams personally answerable both for the breach in their ranks and for their subsequent overthrow.—*The American Cyclopedia, Vol. I., page 93.*

In the United States of America there has never been a censorship of the press.—*The American Cyclopedia, Vol. IV., page 192.*

Much unnecessary anxiety is sometimes felt with regard to the possibility of persons supposed to be dead, being buried while really living. The premature burial of a living person must be, if it happen at all, the result of inexcusable haste or carelessness, and is in the highest degree improbable when ever the ordinary precautions are taken. A proper examination of the body by a competent medical man, in doubtful cases, would render such a mistake almost impossible.—*The American Cyclopedia, Vol. III., page 454.*

COMMON SENSE

Should be used in attempting to cure that very disagreeable disease, catarrh. A catarrh originates in impurities in the blood, local applications can do no permanent good. The common-sense method of treatment is to purify the blood, and for this purpose there is no preparation superior to Hood's Sarsaparilla. That this peculiar medicine does cure catarrh is shown by the many testimonials from people who have found relief upon using it when all others had failed. A book containing statements of cures sent on receipt of two-sent stamp, by C. I. Hood & Co., Lowell, Mass.

I have been a sufferer from catarrh for the past eight years. Having tried a number of remedies advertised as "sure cures" without obtaining any relief, I had resolved never to take any other patent medicines, when a friend advised me to try Ely's Cream Balm. I did so with great reluctance, but can now testify with pleasure that after using it for six weeks I believe myself cured. It is a most agreeable remedy—an invaluable Balm.—Joseph Stewart, 624 Grand-avenue, Brooklyn.

DON'T DESPAIR.

If you are weak and weary from some so-called chronic disease, don't give up. Sulphur Bitters has given hope to many invalids, where hitherto there was nothing but despair. It will build up and renew your whole system.—Editor Weekly American.

THE REV. GEO. H. THAYER, of Bourbon, Ind. says: "Both myself and wife owe our lives to SHILOH'S CONSUMPTION CURE." Sold by Frederick J. R. Clark.

INSTINCT IN BRUTES.

Few things are more wonderful than the instinct that guides the brute in the choice of its food and medicine. In India the mungoose, when bitten by the deadly cobra, is said to seek among the grass for some unknown herb or substance, which it swallows, and is thereby enable to counteract the effect of the poison. Man, when his system is deranged by the accumulated poisons engendered by constipation or sluggish action of body, should seek relief in Dr. Pierce's Pleasant Pellets, which will at once establish a permanently healthy action of the liver, stomach and bowels.

SICK WIVES AND DAUGHTERS.

You have often seen them with pale faces, poor appetite, head and back ache, symptoms common to the sex. Fathers and mothers lose no time in securing Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y.

It will cost only one dollar and is much cheaper then sickness.

If your druggist does not keep the medicine, address the proprietor, Rondout, N. Y.

Do you suffer with catarrh? You can be cured if you take Hood's Sarsaparilla, the great blood purifier. Sold by all druggists.

SALLOW WOMEN.

The Terrible Cause of Poor Complexion, Bad Health and Lack of Life Explained.

"Why is it that so few American women have good complexions?" asked Mrs. Langtry on her first visit to America. Her question can be easily answered. Women are sallow because the blood does not circulate well through their bodies. It does not fill their cheeks with rich color and their eyes with brilliancy. It is "sluggish." What is the result? Bad color, weariness and poor health. What will prevent this? A gentle and pure stimulant that imparts strength, life and good circulation. This is precisely what Duffy's Pure Malt Whiskey does. It is not a beverage it is a health-giving remedy. It is admitted to have done more in making ladies stronger and healthier than any other preparation known to the world. It has the endorsement of clergymen, physicians and lady workers in the temperance cause, and it has never been known to fail in strengthening, restoring and benefiting. A well known lady, writing on this subject, said:

"I can never describe the change that has taken place in my appearance and in my feelings. Instead of feeling tired an 'blue' as I once did, I am now strong and young, both in feeling and appearance. I had a great prejudice against the word 'Whiskey,' but since I have found that Duffy's is indeed a pure and harmless remedy, I feel like letting all women know what a grand help it is."

The experience of this lady has been verified in thousands of cases, and an innumerable number of women are kept in perfect health to-day wholly through this great remedy. To all purchasers we desire to say: "be sure and secure the genuine, and take no other." It is sold everywhere.

Best Cough Cure.

For all the diseases of the Throat and Lungs, no remedy is so safe, speedy and certain as Ayer's Cherry Pectoral. An indispensable family medicine.

"I find Ayer's Cherry Pectoral an invaluable remedy for colds, coughs and other ailments of the throat and lungs."—M. S. Randall, 204 Broadway, Albany, N. Y.

"I have used Ayer's Cherry Pectoral for bronchitis and

Lung Diseases,

for which I believe it to be the greatest medicine in the world."—James Miller, Caraway, N. C.

"My wife had a distressing cough, with pains in the side and breast. We tried various medicines, but none did her any good until I got a bottle of Ayer's Cherry Pectoral, which has cured her. A neighbor, Mrs. Glenn, had the measles, and the cough was relieved by the use of Ayer's Cherry Pectoral. I have no hesitation in recommending this medicine."—Robert Horton, Forman Headlight, Morrillton, Ark.

"Ayer's Cherry Pectoral cured me of a severe cold which had settled on my lungs. My wife says the Pectoral helps her more than any other medicine she ever used."—Enos Clark, Mt. Liberty, Kansas.

★ Dr. David Kennedy's ★ CHERRY BALSAM.

For the cure of coughs, colds, sore throat, diphtheria, diseased lungs, asthma, bronchitis, whooping cough, etc., and all acute affections of the air passages, the chest, the pleura and the lungs. It contains no deleterious drug and can be safely administered to the most debilitated adult or the most delicate child. It strikes at the very root of pulmonary disease. Never conclude that a fresh cough "Will get well of itself in a few days." It may do so and on the other hand, by neglecting it, one may lay the foundation of some incurable pulmonary or throat trouble. Dr. David Kennedy's Cherry Balsam will relieve the cough almost immediately and prevent its becoming seated. Those whose business obliges them to travel and who labor more or less under chronic, consumptive or bronchial coughs should not fail to carry with them a bottle of Dr. David Kennedy's Cherry Balsam, taking it occasionally in small doses as they may feel the need. The cough will abate almost on the instant and the breathing and expectoration become more easy and free. It soothes any sense of irritation that may exist, subdues inflammation or soreness in the lungs throat and air passages, and prevents attacks which are always embarrassing and may prove serious during an absence rom home. No other preparation offered to the public possesses anything like the power of this one over these common and dangerous complaints. To all right feeling persons it is a privilege as well as a duty to provide for the comfort of the aged parents or other relatives who live with and depend upon them. A valuable help in this direction is Dr. David Kennedy's Cherry Balsam, which is more perfectly adapted than anything else to quiet and cure the winter cough to which so many old people are subject. Whether the cough arises from some chronic trouble or from mere feebleness and lack of vitality this gentle and safe medicine is equally effective.

Dr. Kennedy's Cherry Balsam,

Prepared at Rondout, N. Y.

DUFFY'S PURE MALT WHISKEY

A SCIENTIFIC REMEDY,

—NOT—

A BEVERAGE.

No disease germ can possibly remain lodged in the body if this great remedy is carefully and constantly used. Prof. Wm. T. Cutter, State Chemist of Connecticut, says:

"I have analyzed a great many samples of Whiskey, Wines, Ales, etc., and was surprised to find, upon analysis, that Duffy's Malt Whiskey was absolutely pure as I never found this to be the case in any other Whiskey I had examined. These facts must commend it to general use and public favor."

Be sure and secure the genuine and take no other.

MISSOURI COAL MINE RIOT.

Pitched Battle Between Strikers And New Men.

THE KNIGHTS OF LABOR.

Successor to General Master Workman to be Selected.

EAST AFRICAN AFFAIRS.

Fourteen Hundred Runaway Slaves Have Taken Refuge in Three English Mission Stations—Extent of the Blockade—Facts.

By Telegraph to The Freeman.

KANSAS CITY, Mo., Nov. 12.—A riot occurred at the coal mines at Bevior, Mo., Saturday night. A strike has been prevailing there for some months, and there have been frequent rows between strikers and new men. A short time ago a number of Swedes were engaged to take the places of strikers, and Saturday night a pitched battle took place. A. J. Anderson, a Swede, was shot through the breast and killed, and three other Swedes were slightly wounded. It is rumored that one striker was killed, but this is not confirmed. Over 100 shots were fired, and a number of houses were pierced by bullets. The situation is critical, and the militia will probably be called out. Thomas Wardell, owner of the mine, was shot and killed by a mob of strikers six months ago.

DISPOSAL OF RUNAWAY SLAVES

Now Presents a Grave Difficulty in Zanzibar—1,400 Discovered.

By Cable to The Freeman.

ZANZIBAR, Nov. 12.—The blockade, which has been sanctioned by the Sultan, has been deferred for a week at the request of the British Consul in order to give time for the withdrawal of the English Mission at Mogila. A searching official inquiry has revealed the fact that about 1,400 runaway slaves have been taking refuge in three English mission stations adjoining Mombossa, 900 being in the Church at Raboi. Many have been concealed for years, and all had been promised freedom. Their disposal now presents a grave difficulty. The discovery of these slaves explains the persistent opposition of the Arabs to the missions. The authorities of Frere Town were ignorant of this gross abuse. It is rumored that the Arabs have expelled the Portuguse from Minengani and Funghi Bay.

BERLIN, Nov. 12.—The blockade of the East African Coast will extend from Cape Gardafui or Massowah to Madagascar. The German squadron will be increased by three vessels. It is possible that Prince Henry will command the fleet. It is now stated that the Plantation Company will enlist men in the Dutch East Indies. It is believed the Government contemplates a similar plan in case the blockade is not sufficient.

BERLIN, Nov. 12.—A meeting of representatives of all the interests concerned in the East African movement will be held at Cologne, on Wednesday, to discuss the question of recruiting a colony force. The decision will be submitted to the Government. The German press, with the exception of the Liberal and Radical organs, favor the movement.

KNIGHTS OF LABOR GENERAL ASSEMBLY

To Convene To-Morrow—Interest in the Election of Officers Intense.

By Telegraph to The Freeman.

INDIANAPOLIS, Nov. 12.—The eleventh annual session of the General Assembly, Knights of Labor will convene here to-morrow. The session promises to be one of the most interesting in the history of the organization. One of the points around which a contest will center will be the election of a General Master Workman, also an Executive Committee and full list of general officers. Mr. Powderly has repeatedly stated that he would not stand for re-election, but his intimate friends declare he is the only man in whose hands the order can be safely trusted, and it is known that they will insist upon his accepting the leadership another term. It is claimed he can be re-elected if he is willing to accept. Indications, however, point to a vigorous contest, as Thomas Barry, C. W. Carlton, J. P. Buchanan and other leaders of the opposition will be present in force. It remains to be seen upon which side Charles L. Litchman, late General Seretary of the order, will throw his powerful support.

MARLBOROUGH MEN AND WATTERS,

Overcome by Gas—In Interest of Tax Payers—Debating Club.

The Warren building is nearly completed.

The Lattintown public school is largely attended.

C. D. Bloomer has been beautifying his property.

Marlborough ladies are living in fear of burglars.

The upper railroad crossing is in excellent condition.

Landing-street is fast sinking toward the river bottom.

A lodge of the Sons of Temperance will be instituted here.

South-street, known as "African Lane," will be repaired.

James Bush has sold his fruit farm to Howard Berean.

The Marlborough Knitting Mill is being run on full time.

The Ketcham Post Band has several engagements booked.

Many novel election bets have been paid here since Tuesday.

A Retail Dealers' Protective Association will be organized here.

Election returns were read in the Exchange Hotel on Tuesday night.

The school house in the West Neighborhood needs to be enlarged.

The Union Thanksgiving Day service will be held in the Presbyterian Church.

A local debating club will discuss "Tariff Reform" at a meeting soon to be held.

Fruit-growers hereabout are engaging next season's supply of gift shipping packages.

The Republican local Presidential campaign was economically and successfully managed.

A large cargo of builders' material was unloaded at Millard's dock on Tuesday forenoon.

Miss Julia Williams has been seriously ill at her home in Port Richmond, Staten Island.

Sands Haviland is pleased with his experiment in the building of a patented fruit house.

Advance Lodge of Odd Fellows, in this village, is the strongest lodge of the order in this district.

The Ladies' Missionary Society met in the chapel of the Presbyterian Church on Saturday afternoon.

The Marlborough Literary Society and the Marlborough Choral Union are two creditable organizations.

The Misses Elizabeth and Eva Lockwood were overcome by gas escaping from a stove in a bed-room in their home on Thursday night.

The town bills will not be as large this year as in former years. Supervisor Woolsey has been indefatigable in his efforts to govern the town in the interest of the tax-payers.

A number of fruit-growers in Marlborough are satisfied that an association that is largely devoted to the advancement of the interests of straight-line farming does not benefit their business, hence they are determing the wisest plan, that, when carried out, will result in the organization of an Ulster County Fruit-Growers' Association.

John Moorhead is a pains-taking and economical town officer. His bill as Overseer of Town Poor was the smallest ever passed upon by a Marlborough Board of Audit. It was shown that Mr. Moorhead had so managed the affairs of his office that he was indebted to the town for an amount of money. The Town Board, in settling his accounts, passed a complimentary resolution thanking Mr. Moorhead for the economical management of his office.

SPECIAL BUSINESS NOTICES.

"What is the whole duty of a married man?" asks the new conjugal catechism: To be agreeable to his wife and keep Dr. Bull's Cough Syrup in the house for the children when they get a cold, of course. Ask us something hard.

THE VERDICT UNANIMOUS.

W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of ten years' standing." Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my twenty years' experience is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. "WE POINT WITH PRIDE"

To the "Good name at home," won by Hood's Sarsaparilla. In Lowell, Mass., where it is prepared, there is more of Hood's Sarsaparilla sold than of all other medicines, and it has given the best of satisfaction since its introduction ten years ago. This could not be if the medicine did not possess merit. If you suffer from impure blood, try Hood's Sarsaparilla and realize its peculiar curative power.

FOR DYSPEPSIA and Liver Complaint, you have a printed guarantee on every bottle of Shiloh's Vitalizer. It never fails to cure. Sold by Frederick J. R. Clark.

The combination of ingredients found in Ayer's Pills renders them tonic and curative as well as cathartic. For this reason they are the best medicine for people of costive habit, as they restore the natural action of the bowels, without debilitating.

MANY GO OUT FOR WOOL AND GET SHORN,

But they who go out for Hop Ointment to cure their chapped hands or lips, are never disappointed. It gets there every time. All druggists sell it, 25 cents, or mail stamps to Hop Co., New-London, Conn.

AN ALABAMA EPISODE.

"Trying to do business without advertising," says an exchange, "is like winking at a girl in the dark. You may know what you are doing, but no one else does." Trying to cure bilious fever, dyspepsia and torpid liver without using Tutt's Pills, is shooting in the dark. Marie Hock, prima donna of the Thalia Theatre, N. Y., says: "Tutt's Pills is the best medicine I ever used for sick-headache and biliousness."

CARD OF THANKS.

If the proprietor of Kemp's Balsam should publish a card of thanks, containing expressions of gratitude which come to him daily, from those who have been cured of severe throat and lung troubles by the use of Kemp's Balsam, it would fill a fair-sized book. How much better to invite all to call on any druggist and get a free sample bottle that you may test for yourself its power. Large bottles 50c and $1.00.

$500, OR A CURE.

For many years the manufacturers of Dr. Sage's Catarrh Remedy, who are thoroughly responsible financially, as any one can easily ascertain by enquiry, have offered, through nearly every newspaper in the land, a standing reward of $500 for a case of chronic nasal catarrh, no matter how bad, or of how long standing, which they cannot cure. The Remedy is mild, soothing, cleansing, anticeptic and healing. Sold by all druggists, at 50 cents.

WHY WILL YOU cough when Shiloh's Cure will give immediate relief. Price 10 cts., 50 cts. and $1. Sold by Frederick J. R. Clark.

EVERYBODY LIKES

to be called handsome, especially the young ladies. But that is simply impossible as long as their face is covered with pimples, blotches and sores. But wait, there is no need of this; one or two bottles of Sulphur Bitters will remove all such disfigurations, and make your face fair and rosy.—Fannie Bell, Editress.

"TAKEN IN."

"I used often to read the newspaper aloud to my wife," said Bert Robinson, "and once I was fairly taken in by a patent medicine advertisement. The seductive paragraph began with a modest account of the sea serpent, but ended with setting forth the virtues of a certain Dr. Pierce's Golden Medical Discovery which, it was alleged, was a sure cure for all throat and lung troubles and would even cure consumption, if taken in time. The way I was taken in was this: I had a lung trouble and I bought a bottle of the remedy. I was a stranger to it and it took me in—and cured me.

A NASAL INJECTOR free with each bottle of Shiloh's Catarrh Remedy. Price 50 cents. Sold by Frederick J. R. Clark.

DR. DAVID KENNEDY,

Discoverer and Proprietor of Cherry Balsam, is not in a position to risk his reputation upon the success or failure of any preparation as to whose merits a single doubt exists in his own mind, and in recommending the Cherry Balsam for Coughs, Colds, Asthma, Bronchitis, and all bronchial pulmonary affections, he does so with the greatest confidence, having had the most gratifying results follow the use of Cherry Balsam, which he has prescribed for a long time in his private practice. The value of this preparation cannot be overestimated, and even were Dr. Kennedy's own assurance incredible the testimony of the hosts who have used it cannot be impeached. Cherry Balsam will prove effective in many cases of Incipient Consumption; also in Bronchitis and Asthma, where other preparations have not even afforded relief.

It is prompt in its effects, and is therefore a most reliable medicine to use in all complaints such as Croup, Whooping Cough and Hoarseness. A careful trial of Cherry Balsam will prove its superiority over similar preparations.

COUGHS, SORE THROAT, INFLUENZA, WHOOPING COUGH, CROUP, BRONCHITES, ASTHMA, and every affection of the Throat, Lungs and Chest are speedily and permanently cured by the use of

WISTAR'S BALSAM OF WILD CHERRY,

which does not dry up a cough and leave the cause behind, but loosens it, cleanses the lungs, and allays irritation, thus removing the cause of the complaint. CONSUMPTION CAN BE CURED by a timely resort to this standard remedy as is proved by hundreds of testimonials. The genuine is signed "I. Butts" on the wrapper. SETH W. FOWLE & SONS, Proprietors, Boston Mass. Sold by dealers generally.

Yes, you have felt all these things, and doubtless know that tens of thousands of once rosy-checked, plump, healthy girls and women go into their graves every year solely because these weaknesses were allowed to sap up the well springs of life till nature could no longer stand the strain. ★ Dr. David Kennedy's ★ CHERRY BALSAM.

For the cure of coughs, colds, sore throat, diphtheria, diseased lungs, asthma, bronchitis, whooping cough, etc., and all acute affections of the air passages, the chest, the pleura and the lungs. It contains no deleterious drug and can be safely administered to the most debilitated adult or the most delicate child. It strikes at the very root of pulmonary disease. Never conclude that a fresh cough "Will get well of itself in a few days." It may do so and on the other hand, by neglecting it, one may lay the foundation of some incurable pulmonary or throat trouble. Dr. David Kennedy's Cherry Balsam will relieve the cough almost immediately and prevent its becoming seated. Those whose business obliges them to travel and who labor more or less under chronic, consumptive or bronchial coughs should not fail to carry with them a bottle of Dr. David Kennedy's Cherry Balsam, taking it occasionally in small doses as they may feel the need. The cough will abate almost on the instant and the breathing and expectoration become more easy and free. It soothes any sense of irritation that may exist, subdues inflammation or soreness in the lungs throat and air passages, and prevents attacks which are always embarrassing and may prove serious during an absence rom home. No other preparation offered to the public possesses anything like the power of this one over these common and dangerous complaints. To all right feeling persons it is a privilege as well as a duty to provide for the comfort of the aged parents or other relatives who live with and depend upon them. A valuable help in this direction is Dr. David Kennedy's Cherry Balsam, which is more perfectly adapted than anything else to quiet and cure the winter cough to which so many old people are subject. Whether the cough arises from some chronic trouble or from mere feebleness and lack of vitality this gentle and safe medicine is equally effective.

DUFFY'S PURE MALT WHISKEY

A SCIENTIFIC REMEDY,

—NOT—

A BEVERAGE.

No disease germ can possibly remain lodged in the body if this great remedy is carefully and constantly used. Prof. Wm. T. Cutter, State Chemist of Connecticut, says:

"I have analyzed a great many samples of Whiskey, Wines, Ales, etc., and was surprised to find, upon analysis, that Duffy's Malt Whiskey was absolutely pure as I never found this to be the case in any other Whiskey I had examined. These facts must commend it to general use and public favor."

Be sure and secure the genuine and take no other.

MISSOURI COAL MINE RIOT.

Pitched Battle Between Strikers And New Men.

THE KNIGHTS OF LABOR.

Successor to General Master Workman to be Selected.

EAST AFRICAN AFFAIRS.

Fourteen Hundred Runaway Slaves Have Taken Refuge in Three English Mission Stations—Extent of the Blockade—Facts.

By Telegraph to The Freeman.

KANSAS CITY, Mo., Nov. 12.—A riot occurred at the coal mines at Bevior, Mo., Saturday night. A strike has been prevailing there for some months, and there have been frequent rows between strikers and new men. A short time ago a number of Swedes were engaged to take the places of strikers, and Saturday night a pitched battle took place. A. J. Anderson, a Swede, was shot through the breast and killed, and three other Swedes were slightly wounded. It is rumored that one striker was killed, but this is not confirmed. Over 100 shots were fired, and a number of houses were pierced by bullets. The situation is critical, and the militia will probably be called out. Thomas Wardell, owner of the mine, was shot and killed by a mob of strikers six months ago.

DISPOSAL OF RUNAWAY SLAVES

Now Presents a Grave Difficulty in Zanzibar—1,400 Discovered.

By Cable to The Freeman.

ZANZIBAR, Nov. 12.—The blockade, which has been sanctioned by the Sultan, has been deferred for a week at the request of the British Consul in order to give time for the withdrawal of the English Mission at Mogila. A searching official inquiry has revealed the fact that about 1,400 runaway slaves have been taking refuge in three English mission stations adjoining Mombossa, 900 being in the Church at Raboi. Many have been concealed for years, and all had been promised freedom. Their disposal now presents a grave difficulty. The discovery of these slaves explains the persistent opposition of the Arabs to the missions. The authorities of Frere Town were ignorant of this gross abuse. It is rumored that the Arabs have expelled the Portuguse from Minengani and Funghi Bay.

BERLIN, Nov. 12.—The blockade of the East African Coast will extend from Cape Gardafui or Massowah to Madagascar. The German squadron will be increased by three vessels. It is possible that Prince Henry will command the fleet. It is now stated that the Plantation Company will enlist men in the Dutch East Indies. It is believed the Government contemplates a similar plan in case the blockade is not sufficient.

BERLIN, Nov. 12.—A meeting of representatives of all the interests concerned in the East African movement will be held at Cologne, on Wednesday, to discuss the question of recruiting a colony force. The decision will be submitted to the Government. The German press, with the exception of the Liberal and Radical organs, favor the movement.

KNIGHTS OF LABOR GENERAL ASSEMBLY

To Convene To-Morrow—Interest in the Election of Officers Intense.

By Telegraph to The Freeman.

INDIANAPOLIS, Nov. 12.—The eleventh annual session of the General Assembly, Knights of Labor will convene here to-morrow. The session promises to be one of the most interesting in the history of the organization. One of the points around which a contest will center will be the election of a General Master Workman, also an Executive Committee and full list of general officers. Mr. Powderly has repeatedly stated that he would not stand for re-election, but his intimate friends declare he is the only man in whose hands the order can be safely trusted, and it is known that they will insist upon his accepting the leadership another term. It is claimed he can be re-elected if he is willing to accept. Indications, however, point to a vigorous contest, as Thomas Barry, C. W. Carlton, J. P. Buchanan and other leaders of the opposition will be present in force. It remains to be seen upon which side Charles L. Litchman, late General Seretary of the order, will throw his powerful support.

MARLBOROUGH MEN AND WATTERS,

Overcome by Gas—In Interest of Tax Payers—Debating Club.

The Warren building is nearly completed.

The Lattintown public school is largely attended.

C. D. Bloomer has been beautifying his property.

Marlborough ladies are living in fear of burglars.

The upper railroad crossing is in excellent condition.

Landing-street is fast sinking toward the river bottom.

A lodge of the Sons of Temperance will be instituted here.

South-street, known as "African Lane," will be repaired.

James Bush has sold his fruit farm to Howard Berean.

The Marlborough Knitting Mill is being run on full time.

The Ketcham Post Band has several engagements booked.

Many novel election bets have been paid here since Tuesday.

A Retail Dealers' Protective Association will be organized here.

Election returns were read in the Exchange Hotel on Tuesday night.

The school house in the West Neighborhood needs to be enlarged.

The Union Thanksgiving Day service will be held in the Presbyterian Church.

A local debating club will discuss "Tariff Reform" at a meeting soon to be held.

Fruit-growers hereabout are engaging next season's supply of gift shipping packages.

The Republican local Presidential campaign was economically and successfully managed.

A large cargo of builders' material was unloaded at Millard's dock on Tuesday forenoon.

Miss Julia Williams has been seriously ill at her home in Port Richmond, Staten Island.

Sands Haviland is pleased with his experiment in the building of a patented fruit house.

Advance Lodge of Odd Fellows, in this village, is the strongest lodge of the order in this district.

The Ladies' Missionary Society met in the chapel of the Presbyterian Church on Saturday afternoon.

The Marlborough Literary Society and the Marlborough Choral Union are two creditable organizations.

The Misses Elizabeth and Eva Lockwood were overcome by gas escaping from a stove in a bed-room in their home on Thursday night.

The town bills will not be as large this year as in former years. Supervisor Woolsey has been indefatigable in his efforts to govern the town in the interest of the tax-payers.

A number of fruit-growers in Marlborough are satisfied that an association that is largely devoted to the advancement of the interests of straight-line farming does not benefit their business, hence they are determing the wisest plan, that, when carried out, will result in the organization of an Ulster County Fruit-Growers' Association.

John Moorhead is a pains-taking and economical town officer. His bill as Overseer of Town Poor was the smallest ever passed upon by a Marlborough Board of Audit. It was shown that Mr. Moorhead had so managed the affairs of his office that he was indebted to the town for an amount of money. The Town Board, in settling his accounts, passed a complimentary resolution thanking Mr. Moorhead for the economical management of his office.

SPECIAL BUSINESS NOTICES.

"What is the whole duty of a married man?" asks the new conjugal catechism: To be agreeable to his wife and keep Dr. Bull's Cough Syrup in the house for the children when they get a cold, of course. Ask us something hard.

THE VERDICT UNANIMOUS.

W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of ten years' standing." Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my twenty years' experience is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only half a dollar a bottle, at VanDeusen Brothers', Rondout, and F. J. R. Clarke's, Kingston, drug stores.

Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

"WE POINT WITH PRIDE"

To the "Good name at home," won by Hood's Sarsaparilla. In Lowell, Mass., where it is prepared, there is more of Hood's Sarsaparilla sold than of all other medicines, and it has given the best of satisfaction since its introduction ten years ago. This could not be if the medicine did not possess merit. If you suffer from impure blood, try Hood's Sarsaparilla and realize its peculiar curative power.

FOR DYSPEPSIA and Liver Complaint, you have a printed guarantee on every bottle of Shiloh's Vitalizer. It never fails to cure. Sold by Frederick J. R. Clark.

The combination of ingredients found in Ayer's Pills renders them tonic and curative as well as cathartic. For this reason they are the best medicine for people of costive habit, as they restore the natural action of the bowels, without debilitating.

MANY GO OUT FOR WOOL AND GET SHORN,

But they who go out for Hop Ointment to cure their chapped hands or lips, are never disappointed. It gets there every time. All druggists sell it, 25 cents, or mail stamps to Hop Co., New-London, Conn.

AN ALABAMA EPISODE.

"Trying to do business without advertising," says an exchange, "is like winking at a girl in the dark. You may know what you are doing, but no one else does." Trying to cure bilious fever, dyspepsia and torpid liver without using Tutt's Pills, is shooting in the dark. Marie Hock, prima donna of the Thalia Theatre, N. Y., says: "Tutt's Pills is the best medicine I ever used for sick-headache and biliousness."

CARD OF THANKS.

If the proprietor of Kemp's Balsam should publish a card of thanks, containing expressions of gratitude which come to him daily, from those who have been cured of severe throat and lung troubles by the use of Kemp's Balsam, it would fill a fair-sized book. How much better to invite all to call on any druggist and get a free sample bottle that you may test for yourself its power. Large bottles 50c and $1.00.

$500, OR A CURE.

For many years the manufacturers of Dr. Sage's Catarrh Remedy, who are thoroughly responsible financially, as any one can easily ascertain by enquiry, have offered, through nearly every newspaper in the land, a standing reward of $500 for a case of chronic nasal catarrh, no matter how bad, or of how long standing, which they cannot cure. The Remedy is mild, soothing, cleansing, anticeptic and healing. Sold by all druggists, at 50 cents.

WHY WILL YOU cough when Shiloh's Cure will give immediate relief. Price 10 cts., 50 cts. and $1. Sold by Frederick J. R. Clark.

EVERYBODY LIKES

to be called handsome, especially the young ladies. But that is simply impossible as long as their face is covered with pimples, blotches and sores. But wait, there is no need of this; one or two bottles of Sulphur Bitters will remove all such disfigurations, and make your face fair and rosy.—Fannie Bell, Editress.

"TAKEN IN."

"I used often to read the newspaper aloud to my wife," said Bert Robinson, "and once I was fairly taken in by a patent medicine advertisement. The seductive paragraph began with a modest account of the sea serpent, but ended with setting forth the virtues of a certain Dr. Pierce's Golden Medical Discovery which, it was alleged, was a sure cure for all throat and lung troubles and would even cure consumption, if taken in time. The way I was taken in was this: I had a lung trouble and I bought a bottle of the remedy. I was a stranger to it and it took me in—and cured me.

A NASAL INJECTOR free with each bottle of Shiloh's Catarrh Remedy. Price 50 cents. Sold by Frederick J. R. Clark.

DR. DAVID KENNEDY,

Discoverer and Proprietor of Cherry Balsam, is not in a position to risk his reputation upon the success or failure of any preparation as to whose merits a single doubt exists in his own mind, and in recommending the Cherry Balsam for Coughs, Colds, Asthma, Bronchitis, and all bronchial pulmonary affections, he does so with the greatest confidence, having had the most gratifying results follow the use of Cherry Balsam, which he has prescribed for a long time in his private practice. The value of this preparation cannot be overestimated, and even were Dr. Kennedy's own assurance incredible the testimony of the hosts who have used it cannot be impeached. Cherry Balsam will prove effective in many cases of Incipient Consumption; also in Bronchitis and Asthma, where other preparations have not even afforded relief.

It is prompt in its effects, and is therefore a most reliable medicine to use in all complaints such as Croup, Whooping Cough and Hoarseness. A careful trial of Cherry Balsam will prove its superiority over similar preparations.

COUGHS, SORE THROAT, INFLUENZA, WHOOPING COUGH, CROUP, BRONCHITES, ASTHMA, and every affection of the Throat, Lungs and Chest are speedily and permanently cured by the use of

WISTAR'S BALSAM OF WILD CHERRY,

which does not dry up a cough and leave the cause behind, but loosens it, cleanses the lungs, and allays irritation, thus removing the cause of the complaint. CONSUMPTION CAN BE CURED by a timely resort to this standard remedy as is proved by hundreds of testimonials. The genuine is signed "I. Butts" on the wrapper. SETH W. FOWLE & SONS, Proprietors, Boston Mass. Sold by dealers generally.

FOR WOMEN.

Are you wasting slowly but surely away from the effects of female weaknesses? Are you wan, pale, and nervous? Do you not sometimes feel that life is losing its attractions, and that you are gradually sinking into a decline which, if not taken in hand promptly, will end in an early death? Yes, you have felt all these things, and doubtless know that tens of thousands of once rosy-checked, plump, healthy girls and women go into their graves every year solely because these weaknesses were allowed to sap up the well springs of life till nature could no longer stand the strain. There is not a sensible maid, wife or mother who will not appreciate as more valuable than gold and precious stones Dr Fontaine's new remedy PALMETTO, which is safe, sure, and speedy in curing the worst case of female weakness.

Mailed secure from observation on receipt of $1.00 I also have a full line of elegant Toilet Goods, including Face Cream and Jellies, Wrinkle Paste Fattening Formula, Auburnine, Depilatory, Acnine, Freckle Lotion, etc. Development of a beautiful form a specialty. Sealed circulars, 4 cents.

The Rev. Dr. A. G. Vermilye, of New-York, preached in the First Reformed Church, Kingston, Sunday, to a large congregation. Mr. Vermilye, before beginning his discourse, referred to the fact that just after he left the Seminary he occupied this pulpit for several weeks. This was prior to the beginning of Dr. J. C. F. Hoes's pastorate of this Church. Mr. Vermilye said that from that time until this he had never been in the pulpit. When he looked over the congregation, he missed a number of faces and was reminded that many years had passed.

MINOR NOTES AROUND THIS TOWN.

Facts, Fancies and Gossip Heard by Reporters Here This Day.

Many apples are being sold by farmers in this City.

Mrs. Thomas H. Houlihan, of Liberty, is visiting relatives in Kingston.

What is called "sauer-kraut cabbage" was sold in Rondout to-day at $1 per 100 heads.

Kingston people are looking forward to a fashionable wedding, which will take place during the present month.

The sky was so clear last night that the mountain houses in the Catskills could be seen with the naked eye from this City.

Young ladies of this City wear "wings" this fall. They are no more angelic than usual. The "wings" are on their cloaks.

On Thursday evening the members of the Fourteenth Separate Company, of this City, will take part in a fatigue drill in the Armory, on Union-avenue.

A weather signal station was placed on the Mansion House, Rondout, to-day. It will indicate the weather for this City and near vicinity only. It is connected on the top of the building by an anometer and anemo scope, wheeled instruments.

Owing to recent heavy rains much mud has accumulated on the streets of this City. On Union-avenue, to-day, Street Superintendent VanGaasbeek, with a number of men, horses, wagons, etc., were employed carting away mud and dried leaves.

EXPECTED IT WILL BE A SUCCESS.

A System of Sewerage at One Time Advocated for this City.

The system of sewerage, at one time advocated for this City, has been adopted in the town of East Orange, N. J., and it is expected it will be a success. The system is what is known as the small pipe flush tank separate system. The sewage is carried through laterals into main pipes and then by means of flushing with automatic flush tanks, carried out of the village into a large receiver, where it is deodorized. The liquid matter passes off, the solid matter settles to the bottom, is collected and used as a fertilizer. It is claimed that the sale of this fertilizer will furnish a sufficient revenue to pay the cost of running the works. The system in East-Orange is calculated to dispose of the sewage of a population of 60,000. Whole cost is $370,000. In this separate system of sewerage storm water does not run into the pipes. The pipes being small continual flushing with water has the effect of keeping them thoroughly cleansed. It does away with the objection of emptying sewage in fresh water streams. The system, it is claimed, could be used to great advantage in this City, especially in the upper portion, the formation of the ground there being well calculated to make it successful.

RECENT DEATHS AND FUNERALS.

Demise of an Old Man—Interment in Kingston this Afternoon.

James M. Fern, of Monroe, Orange County, died recently at the age of 86.

Julius Conner, of Scotchtown, Orange County, died, one day recently, of typhoid fever.

The funeral of William H. Dumont, of Kingston, took place, this afternoon, from the family residence on Clinton-avenue. Many relatives and friends were present. The Rev. J. L. Davis preached the funeral sermon.

Samuel Purdy, father of P. V. L. Purdy, died at his home, in Milton, on Wednesday forenoon, aged 85 years. The funeral services were held in the M. E. Church, Friday afternoon. Mr. Purdy was the oldest resident in Milton, prior to his death.

A Musical Kitten.

During a rehearsal of the Kingston Philharmonic Society, recently, the singing seemed to fascinate a little black kitten. Where this kitten came from no one knew. It was first seen lying stretched out on a pile of books of the "Oratorio of the Creation." During the singing it was all attention, ears erect and eyes wide open. At recess it went to sleep, but the moment the singing was renewed it again took its position of rapt attention. This kitten certainly has an appreciative ear for good music.

Now Wears Eye-Glasses.

A Kingston merchant sold a countryman a suit of clothes Saturday for $12.50. The countryman tendered a $5 gold piece in payment. The merchant mistaking it for a $20 gold piece, gave his customer $7.50 in change. Later when the mistake was discovered a search was made for the man. When found he said he thought he had a good deal of money left, but it did not enter his head that a clothing dealer would cheat himself in making change. The merchant now wears a pair of eye glasses.

Amusement Notes.

The Baldwin-Melville Combination will open a week's engagement at Kingston Opera House to-night in the drama of "Queen's Evidence."

At Liscomb's Opera House, Rondout, to-night, the Francesca Redding Company will open a week's engagement with a four act drama entitled "Maritaner, or, the Soldier of Fortune."

Promised for Tuesday:

Fair weather, slight rise in temperature, westerly winds.

ELECTION DAY ECHOES

HEARD IN THIS CITY AND OTHER PLACES NEAR BY.

Preparing for the Salt River Expedition—"National Surprise Party"—Celebrating the Victory Along the Hudson—"Mum Sociables."

Rondout Democrats are still holding "mum sociables."

The proposed Republican parade in Rondout on Wednesday night has been abandoned.

The steamboat Jacob H. Tremper, the officers of which, except the Purser, voted for Harrison and Morton, entered the Rondout Creek this forenoon with all its colors set, the walking beam "wrapped up in the American flag" and its gallows frame decorated with brooms. On passing Ellerslie the Tremper's whistle was blown in honor of the Hon. Levi P. Morton.

A Kingston man said to-day: "For my part, I don't believe in the good old times they talk so much about. I have a vivid recollection of the time when I first earned a suit of clothes by my own labor. I received 12½ cents a day. I worked hard and was tired when the job was fiuished. I was paid in home-made cloth, and had this made in a suit of clothes. Think of working now for 12½ cents a day. Give me Republican rule and the benefit of protection."

Silas Wood, of Kingston, has been "making poetry" on the good time coming under Republican rule. The following is a sample verse:

O now the hens begin to lay
And eggs go down from day to day.
You boil them soft, you boil them hard,
You season with butter and not with lard.
The hens do cackle,
The hens do lay,
The rooster crows from day to day.

Notwithstanding the slighting remarks made by the *Kingston Leader* on the Democratic tinsel brigade, known as the Continentals, the members of that body are so fascinated with their uniforms and torches that they have decided to continue the organization, to parade now and then, to the delight of Kingston boodlums. In addition to their campaign uniform they will wear mourning bands on their hats and left arms. They will take a prominent part in the Salt River expedition.

OTHER ELECTION ECHOES.

We have lost all interest in the Presidential election returns.—*Yonkers Gazette.*

The election of Harrison and Morton will be celebrated by Nyack Republicans to-night.

It seems Grover was not Thurman for the emergency after all.—*Yonkers Gazette* [*Democratic.*]

Republican clubs and organizations will celebrate the election of Harrison and Morton in many towns south of this City to-night.

Saugerties Republicans will celebrate the election of Harrison and Morton by making a parade on Tuesday night.

Rhinebeck people are pleased over the election of Martin Heermance to the office of District Attorney of Dutchess County.

A public school at Walden was closed on election day, so its Principal "could advance the cause of Prohibition."—*Goshen Democrat.*

The Democrats of Middletown who were compelled to listen to the tooting of fish horns by Republicans after election are in favor of dishorning.

The *Wappingers Chronicle* calls the result of the election a "National Surprise party." The *Chronicle* has a right to call the result whatever it chooses, but there are many people in this City who were not surprised, and they had faith enough to invest many dollars in wagers "on the general result."

J. Evert Wilson, a Newburgh Democrat, illuminated his residence when the Republicans celebrated the election of Harrison. Being asked why he did so, Mr. Wilson replied: "I am not illuminating in honor of the Republicans, but in honor of the President-elect. If General Harrison is elected Chief Executive of this Nation he is my President as much as he is of any other citizen. He was not my choice. I did not vote for him. Now that he is elected I can certainly do no less than light my residence up in his honor, and accept him as the choice of the majority of a free people. If I was as strong physically as I once was, I should not consider that I had done my whole duty as an American citizen if I did not join in the jubilee parade."

REPUBLICAN JUBILEE.

The Republican jubilee meeting held at Roxbury, Delaware County, on Saturday night, was a successful affair. About 600 men were in the procession. Clubs and gun squads from various places along the line of the Ulster & Delaware Railroad participated. Conspicuous among the cannons that boomed was that of the S. D. Coykendall Gun Squad, of Rondout. For a time it "rained cats and dogs," but that circumstance did not materially interfere with the demonstration. Enthusiasm ran high. There were many portraits of Harrison and Morton carried in the parade.

YES, WHY ASK?

[From the Newburgh Journal.]

"Where is my boy to-night?" asks the Prohibitionist. And the question is really sarcastic. Why ask? You know. And for three years more you can look for him in the same place. But you voted on Tuesday in favor of giving him just that place to go to. And not only your boy, but the boys of Republicans and the boys of Democrats as well, will have that same place of resort. When you hear of mothers weeping over drunken sons, and sisters pleading with wayward brothers, just remember that you could have so voted on Tuesday, that a very large share of this misery would have been prevented. Remember, you third party man, who voted in such a way as to help Hill, that you must bear the responsibility for knowingly sacrificing such a great opportunity as was offered you for promoting the great cause of temperance reform.

A Profitable Traffic.

[From the Downsville Times.]

The Delaware, Lackawanna Western, Ontario and Western and West Shore railroads are transporting milk over their lines by daily trains from points in Chenango, Madison and Oneida counties, 225 to 250 miles distant from New-York. Every season these and other milk carrying lines are compelled by the ever increasing demands of the city market to reach out into new milk producing territory for additional supplies. An extension of the traffic 100 miles north of its present bounds in central New-York would open up the productive milk region in Canada. The freight rates charged by the railroads for carrying the milk to market varies from 35 to 38 cents per 40 quart can. An ordinary refrigerator car will hold 280 to 300 cans. Each car, therefore, pays the company running it about $105 freightage per trip—a profitable traffic, even though carried on over long lines of transportation.

VARIOUS SPORTING MATTERS NOTED.

About the Kingston Driving Park—'Cyclers Blown Along by the Wind.

Large catfish are being caught in the Hudson River near New Hamburgh.

The strong wind that prevailed to-day in this City sent 'cyclers along six or seven miles an hour, almost without the riders touching the pedals. When they attempted to run in the opposite direction, however, it was "pushing" work.

The manager of the Kingston Driving Park will probably make use of the park during the winter for horse trotting on the snow. After a heavy fall of snow an excellent track can be made, and with little work kept in good condition during the whole winter. Those who wish to speed their horses can use the track instead of Albany-avenue without risk.

AN OLD VETERAN GIVES AN OPINION.

Where Muzzle-Loaders Did Wonderful Execution—Rapid Firing.

A Kingston veteran said, to-day: "Great attention is being paid by military men to magazine rifles that will carry a small ball with great power of penetration. They are favorable to the small bore because the cartridges will be smaller and the soldier can carry more ammunition into battle on his person. It is my opinion that it is of much greater importance to teach soldiers to hit the object they fire at. If every soldier in an army is a good shot and can hit his mark twice out of three times, greater success will be had with a muzzle-loading rifle than with a magazine rifle that will fire away as fast as a man pulls a trigger, if he is not a marksman. The history of the past shows that where men were experts with the rifle the old muzzle loaders did wonderful execution. Take for instance the battle of Bunker Hill. The Americans with little more organization than a mob, successfully resisted two assaults of an army of trained British soldiers, killing and wounding half their number. The Americans were expert riflemen and they shot to kill. In the battle of New-Orleans the British, with 12,000 of the finest soldiers of the world, veterans of many battles, in a few minutes were put to rout by 3,000 undisciplined Americans because of the latter's their skill with the rifle. The British lost 2,600 killed and wounded, while the Americans lost eight killed and 13 wounded. During the war of the Rebellion the Confederates won several battles by their superior skill in handling the musket. The Confederates generally were good marksmen. Soldiers carry in battle 60 rounds of ammunition. A thousand men, therefore, can fire 60,000 shots. If these soldiers are as expert as our western cowboys in the use of their weapons, and can kill every third shot, they will slay an army of 10,000 men. Isn't it common sense to say it is of the greatest importance that soldiers should be expert with the rifle? What benefit is there in rapid firing if it does no execution? What benefit is penetration if the ball does not hit the object? If military men would set themselves to work to train soldiers in superior marksmanship, and less in fancy manœuvering, their armies would be more effective in actual warfare with or without a magazine rifle."

SOME PHASES OF THE SEAMY SIDE.

Bold Burglars who Entered a Store and Sleeping Apartments.

The burglars who entered the store of D. R. Elting on Bowery-street, Kingston, Friday night, were bold fellows. After going through the store, they went into sleeping rooms up-stairs and made a thorough examination for valuables while the occupants of the room were asleep.

BEFORE RECORDER HUSSEY.

Joseph Ascomb, an Austrian, of Whiteport, Ulster County, was fined $5 for intoxication.

Last night Deputy Sheriff Westbrook, of Kingston, arrested two men who gave their names as George Wallace and Alexander McKenzie, for "stealing a ride" on the West Shore Railroad from Newburgh to this City. The men said they were sailors. This forenoon Recorder Hussey sentenced them to 30 days each in the Ulster County Jail, Kingston.

IN JUSTICES' COURT.

A Rondout Justice of the Peace says politics has interfered considerably with business in his Court.

This morning Hiram Terwilliger, of Kingston, swore to a complaint against one John Grauss and wife before 'Squire S. S. Westbrook, Kingston. The complaint alleges that while a son of Terwilliger, aged seven years, was passing the residence of Grauss, on Summer-street, a large dog owned by Grauss sprang over the fence and bit the Terwilliger boy. The complaint embodies a notice directing that the dog be killed. This Mrs. Grauss, it is said, will not do, and a dog suit may be the outcome.

Nature Smites no Man

Without giving him notice. Yet we pay small heed to her solemn warnings. "Oh, it is nothing." "It will pass off presently." "I shall be all right in a day or two." These confident words are on our lips and we often believe what we say, even when the great crisis of our lives is standing at the door. In our subsequent agony, during the weary days and comfortless nights, we sigh and say: "Oh! if I had only known such a disease as this could come upon me I would have taken the proper remedy when the first sign of it appeared." Watch the signs. The languid, tired feeling, drowsness, shifting pains about the body, occasional chilliness, dry skin, variable appetite, poor sleep, lack of ambition, yellowness of the eyes, bad taste in the mouth, feelings of despondency and gloom without any especial reason, fears for the future, and in short any indication showing a want of your usual elasticity, strength, mental grip and cheerfulnes in fighting life's battle—these things or any of them mean that your system is out of order and serious illness very near. You may check the onslaught of the enemy by at once employing a remedy whose wide reputation and success bespeak its virtues, Dr. Brown's Sarsaparilla. This preparation tones and regulates the digestion, stimulates the liver and kidneys, opens the pores of the skin, quiets the excited nerves and expels disease from the system.

Honorable Eugene Hale, U. S. Senator from Maine, says in a letter of recent date: "I have great confidence in Dr. Brown's medical sagacity and skill," and so have thousands who have been raised from sickness to health by

On Thursday evening the members of the Fourteenth Separate Company, of this City, will take part in a fatigue drill in the Armory, on Union-avenue.

A weather signal station was placed on the Mansion House, Rondout, to-day. It will indicate the weather for this City and near vicinity only. It is connected on the top of the building by an anometer and anemo scope, wheeled instruments.

Owing to recent heavy rains much mud has accumulated on the streets of this City. On Union-avenue, to-day, Street Superintendent VanGaasbeek, with a number of men, horses, wagons, etc., were employed carting away mud and dried leaves.

EXPECTED IT WILL BE A SUCCESS.

A System of Sewerage at One Time Advocated for this City.

The system of sewerage, at one time advocated for this City, has been adopted in the town of East Orange, N. J., and it is expected it will be a success. The system is what is known as the small pipe flush tank separate system. The sewage is carried through laterals into main pipes and then by means of flushing with automatic flush tanks, carried out of the village into a large receiver, where it is deodorized. The liquid matter passes off, the solid matter settles to the bottom, is collected and used as a fertilizer. It is claimed that the sale of this fertilizer will furnish a sufficient revenue to pay the cost of running the works. The system in East-Orange is calculated to dispose of the sewage of a population of 60,000. Whole cost is $370,000. In this separate system of sewerage storm water does not run into the pipes. The pipes being small continual flushing with water has the effect of keeping them thoroughly cleansed. It does away with the objection of emptying sewage in fresh water streams. The system, it is claimed, could be used to great advantage in this City, especially in the upper portion, the formation of the ground there being well calculated to make it successful.

RECENT DEATHS AND FUNERALS.

Demise of an Old Man—Interment in Kingston this Afternoon.

James M. Fern, of Monroe, Orange County, died recently at the age of 86.

Julius Conner, of Scotchtown, Orange County, died, one day recently, of typhoid fever.

The funeral of William H. Dumont, of Kingston, took place, this afternoon, from the family residence on Clinton-avenue. Many relatives and friends were present. The Rev. J. L. Davis preached the funeral sermon.

Samuel Purdy, father of P. V. L. Purdy, died at his home, in Milton, on Wednesday forenoon, aged 85 years. The funeral services were held in the M. E. Church, Friday afternoon. Mr. Purdy was the oldest resident in Milton, prior to his death.

A Musical Kitten.

During a rehearsal of the Kingston Philharmonic Society, recently, the singing seemed to fascinate a little black kitten. Where this kitten came from no one knew. It was first seen lying stretched out on a pile of books of the "Oratorio of the Creation." During the singing it was all attention, ears erect and eyes wide open. At recess it went to sleep, but the moment the singing was renewed it again took its position of rapt attention. This kitten certainly has an appreciative ear for good music.

Now Wears Eye-Glasses.

A Kingston merchant sold a countryman a suit of clothes Saturday for $12.50. The countryman tendered a $5 gold piece in payment. The merchant mistaking it for a $20 gold piece, gave his customer $7.50 in change. Later when the mistake was discovered a search was made for the man. When found he said he thought he had a good deal of money left, but it did not enter his head that a clothing dealer would cheat himself in making change. The merchant now wears a pair of eye glasses.

Amusement Notes.

The Baldwin-Melville Combination will open a week's engagement at Kingston Opera House to-night in the drama of "Queen's Evidence."

At Liscomb's Opera House, Rondout, to-night, the Francesca Redding Company will open a week's engagement with a four act drama entitled "Maritaner, or, the Soldier of Fortune."

The November Circuit.

A jury was drawn Saturday for the November Circuit of Ulster County. This court will convene November 26. Judge Mayhem will preside.

Saw a Meteor Drop.

On election night a Kingston man says a large meteor was seen to drop from the sky toward the Overlook Mountain.

Promised for Tuesday:

Fair weather, slight rise in temperature, westerly winds.

ELECTION DAY ECHOES

HEARD IN THIS CITY AND OTHER PLACES NEAR BY.

Preparing for the Salt River Expedition—"National Surprise Party"—Celebrating the Victory Along the Hudson—"Mum Sociables."

Rondout Democrats are still holding "mum sociables."

The proposed Republican parade in Rondout on Wednesday night has been abandoned.

The steamboat Jacob H. Tremper, the officers of which, except the Purser, voted for Harrison and Morton, entered the Rondout Creek this forenoon with all its colors set, the walking beam "wrapped up in the American flag" and its gallows frame decorated with brooms. On passing Ellerslie the Tremper's whistle was blown in honor of the Hon. Levi P. Morton.

A Kingston man said to-day: "For my part, I don't believe in the good old times they talk so much about. I have a vivid recollection of the time when I first earned a suit of clothes by my own labor. I received 12½ cents a day. I worked hard and was tired when the job was fiuished. I was paid in home-made cloth, and had this made in a suit of clothes. Think of working now for 12½ cents a day. Give me Republican rule and the benefit of protection."

Silas Wood, of Kingston, has been "making poetry" on the good time coming under Republican rule. The following is a sample verse:

O now the hens begin to lay
And eggs go down from day to day.
You boil them soft, you boil them hard,
You season with butter and not with lard.
The hens do cackle,
The hens do lay,
The rooster crows from day to day.

Notwithstanding the slighting remarks made by the *Kingston Leader* on the Democratic tinsel brigade, known as the Continentals, the members of that body are so fascinated with their uniforms and torches that they have decided to continue the organization, to parade now and then, to the delight of Kingston boodlums. In addition to their campaign uniform they will wear mourning bands on their hats and left arms. They will take a prominent part in the Salt River expedition.

OTHER ELECTION ECHOES.

We have lost all interest in the Presidential election returns.—*Yonkers Gazette.*

The election of Harrison and Morton will be celebrated by Nyack Republicans to-night.

It seems Grover was not Thur-man for the emergency after all.—*Yonkers Gazette* [*Democratic.*]

Republican clubs and organizations will celebrate the election of Harrison and Morton in many towns south of this City to-night.

Saugerties Republicans will celebrate the election of Harrison and Morton by making a parade on Tuesday night.

Rhinebeck people are pleased over the election of Martin Heermance to the office of District Attorney of Dutchess County.

A public school at Walden was closed on election day, so its Principal "could advance the cause of Prohibition."—*Goshen Democrat.*

The Democrats of Middletown who were compelled to listen to the tooting of fish horns by Republicans after election are in favor of dishorning.

The *Wappingers Chronicle* calls the result of the election a "National Surprise party." The *Chronicle* has a right to call the result whatever it chooses, but there are many people in this City who were not surprised, and they had faith enough to invest many dollars in wagers "on the general result."

J. Evert Wilson, a Newburgh Democrat, illuminated his residence when the Republicans celebrated the election of Harrison. Being asked why he did so, Mr. Wilson replied: "I am not illuminating in honor of the Republicans, but in honor of the President-elect. If General Harrison is elected Chief Executive of this Nation he is my President as much as he is of any other citizen. He was not my choice. I did not vote for him. Now that he is elected I can certainly do no less than light my residence up in his honor, and accept him as the choice of the majority of a free people. If I was as strong physically as I once was, I should not consider that I had done my whole duty as an American citizen if I did not join in the jubilee parade."

REPUBLICAN JUBILEE.

The Republican jubilee meeting held at Roxbury, Delaware County, on Saturday night, was a successful affair. About 600 men were in the procession. Clubs and gun squads from various places along the line of the Ulster & Delaware Railroad participated. Conspicuous among the cannons that boomed was that of the S. D. Coykendall Gun Squad, of Rondout. For a time it "rained cats and dogs," but that circumstance did not materially interfere with the demonstration. Enthusiasm ran high. There were many portraits of Harrison and Morton carried in the parade.

YES, WHY ASK?

[From the Newburgh Journal.]

"Where is my boy to-night?" asks the Prohibitionist. And the question is really sarcastic. Why ask? You know. And for three years more you can look for him in the same place. But you voted on Tuesday in favor of giving him just that place to go to. And not only your boy, but the boys of Republicans and the boys of Democrats as well, will have that same place of resort. When you hear of mothers weeping over drunken sons, and sisters pleading with wayward brothers, just remember that you could have so voted on Tuesday, that a very large share of this misery would have been prevented. Remember, you third party man, who voted in such a way as to help Hill, that you must bear the responsibility for knowingly sacrificing such a great opportunity as was offered you for promoting the great cause of temperance reform.

A Profitable Traffic.

[From the Downsville Times.]

The Delaware, Lackawanna Western, Ontario and Western and West Shore railroads are transporting milk over their lines by daily trains from points in Chenango, Madison and Oneida counties, 225 to 250 miles distant from New-York. Every season these and other milk carrying lines are compelled by the ever increasing demands of the city market to reach out into new milk producing territory for additional supplies. An extension of the traffic 100 miles north of its present bounds in central New-York would open up the productive milk region in Canada. The freight rates charged by the railroads for carrying the milk to market varies from 35 to 38 cents per 40 quart can. An ordinary refrigerator car will hold 280 to 300 cans. Each car, therefore, pays the company running it about $105 freightage per trip—a profitable traffic, even though carried on over long lines of transportation.

VARIOUS SPORTING MATTERS NOTED.

About the Kingston Driving Park—'Cyclers Blown Along by the Wind.

Large catfish are being caught in the Hudson River near New Hamburgh.

The strong wind that prevailed to-day in this City sent 'cyclers along six or seven miles an hour, almost without the riders touching the pedals. When they attempted to run in the opposite direction, however, it was "pushing" work.

The manager of the Kingston Driving Park will probably make use of the park during the winter for horse trotting on the snow. After a heavy fall of snow an excellent track can be made, and with little work kept in good condition during the whole winter. Those who wish to speed their horses can use the track instead of Albany-avenue without risk.

There was a full calendar at Ulster Surrogate's Court, Kingston, to-day.

Railroad Affairs.

The Erie Railroad Company is building 200 cars for the transportation of fruit.

AN OLD VETERAN GIVES AN OPINION.

Where Muzzle-Loaders Did Wonderful Execution—Rapid Firing.

A Kingston veteran said, to-day: "Great attention is being paid by military men to magazine rifles that will carry a small ball with great power of penetration. They are favorable to the small bore because the cartridges will be smaller and the soldier can carry more ammunition into battle on his person. It is my opinion that it is of much greater importance to teach soldiers to hit the object they fire at. If every soldier in an army is a good shot and can hit his mark twice out of three times, greater success will be had with a muzzle-loading rifle than with a magazine rifle that will fire away as fast as a man pulls a trigger, if he is not a marksman. The history of the past shows that where men were experts with the rifle the old muzzle loaders did wonderful execution. Take for instance the battle of Bunker Hill. The Americans with little more organization than a mob, successfully resisted two assaults of an army of trained British soldiers, killing and wounding half their number. The Americans were expert riflemen and they shot to kill. In the battle of New-Orleans the British, with 12,000 of the finest soldiers of the world, veterans of many battles, in a few minutes were put to rout by 3,000 undisciplined Americans because of the latter's their skill with the rifle. The British lost 2,600 killed and wounded, while the Americans lost eight killed and 13 wounded. During the war of the Rebellion the Confederates won several battles by their superior skill in handling the musket. The Confederates generally were good marksmen. Soldiers carry in battle 60 rounds of ammunition. A thousand men, therefore, can fire 60,000 shots. If these soldiers are as expert as our western cowboys in the use of their weapons, and can kill every third shot, they will slay an army of 10,000 men. Isn't it common sense to say it is of the greatest importance that soldiers should be expert with the rifle? What benefit is there in rapid firing if it does no execution? What benefit is penetration if the ball does not hit the object? If military men would set themselves to work to train soldiers in superior marksmanship, and less in fancy manœuvering, their armies would be more effective in actual warfare with or without a magazine rifle."

SOME PHASES OF THE SEAMY SIDE.

Bold Burglars who Entered a Store and Sleeping Apartments.

The burglars who entered the store of D. R. Elting on Bowery-street, Kingston, Friday night, were bold fellows. After going through the store, they went into sleeping rooms up-stairs and made a thorough examination for valuables while the occupants of the room were asleep.

BEFORE RECORDER HUSSEY.

Joseph Ascomb, an Austrian, of Whiteport, Ulster County, was fined $5 for intoxication.

Last night Deputy Sheriff Westbrook, of Kingston, arrested two men who gave their names as George Wallace and Alexander McKenzie, for "stealing a ride" on the West Shore Railroad from Newburgh to this City. The men said they were sailors. This forenoon Recorder Hussey sentenced them to 30 days each in the Ulster County Jail, Kingston.

IN JUSTICES' COURT.

A Rondout Justice of the Peace says politics has interfered considerably with business in his Court.

This morning Hiram Terwilliger, of Kingston, swore to a complaint against one John Grauss and wife before 'Squire S. S. Westbrook, Kingston. The complaint alleges that while a son of Terwilliger, aged seven years, was passing the residence of Grauss, on Summer-street, a large dog owned by Grauss sprang over the fence and bit the Terwilliger boy. The complaint embodies a notice directing that the dog be killed. This Mrs. Grauss, it is said, will not do, and a dog suit may be the outcome.

Nature Smites no Man

Without giving him notice. Yet we pay small heed to her solemn warnings. "Oh, it is nothing." "It will pass off presently." "I shall be all right in a day or two." These confident words are on our lips and we often believe what we say, even when the great crisis of our lives is standing at the door. In our subsequent agony, during the weary days and comfortless nights, we sigh and say: "Oh! if I had only known such a disease as this could come upon me I would have taken the proper remedy when the first sign of it appeared." Watch the signs. The languid, tired feeling, drowsness, shifting pains about the body, occasional chilliness, dry skin, variable appetite, poor sleep, lack of ambition, yellowness of the eyes, bad taste in the mouth, feelings of despondency and gloom without any especial reason, fears for the future, and in short any indication showing a want of your usual elasticity, strength, mental grip and cheerfulness in fighting life's battle—these things or any of them mean that your system is out of order and serious illness very near. You may check the onslaught of the enemy by at once employing a remedy whose wide reputation and success bespeak its virtues, Dr. Brown's Sarsaparilla. This preparation tones and regulates the digestion, stimulates the liver and kidneys, opens the pores of the skin, quiets the excited nerves and expels disease from the system.

Honorable Eugene Hale, U. S. Senator from Maine, says in a letter of recent date: "I have great confidence in Dr. Brown's medical sagacity and skill," and so have thousands who have been raised from sickness to health by

NOTES ON NEWS OF THE DAY.

THE latest figures on the election in this state give the following majorities: Harrison and Morton, 12,295; Hill, 16,571; Jones, 11,736; Gray, 10,638.

CHAIRMAN BARNUM was still alive last night and had recovered consciousness. He was also able to take a little nourishment. The doctors could give but little encouragement.

IT is part of the political gossip of New York that 1,200 of the postoffice employes voted for Harrison. This may not have been a fine sample of Mugwump gratitude, but it proves to have been good politics.

THE only Republican vote cast in Elberton, Georgia, was by a young man named Patrick Henry. The Democrats were so indignant at the disgrace of their town that they seized him and gave him a public cowhiding.

IT is found that Admiral Porter was one of the committee of arrangements for the inaugural ball in 1841, when Gen. Wm. H. Harrison became President. Though the Admiral is now too old to dance, his name is going to grace the committee list again.

PRESIDENT CLEVELAND enjoys the confidence of every man, woman and child in this republic.—*Kingston Leader before the election.*

Electoral vote: Harrison, 239; Cleveland, 162. Republican majority in House of Representatives, 21.

THE American people are a people of good common sense. It does not take them long to discover and expose a humbug.—*Kingston Leader before the election.*

Electoral vote: Harrison, 239; Cleveland, 162. Republican majority in House of Representatives, 21.

MR. CLEVELAND has summoned Collector Magone of New York to Washington. He wishes to know why the man who has for four years enjoyed the fattest office in his gift could not find time to go to the polls last Tuesday.

GEN. HARRISON, when in the Senate, made a report as a member of the Committee on Territories in favor of the admission of Dakota as two states, the northern portion by the name of Lincoln. The Dakotans are as exuberant over Harrison's election as his neighbors in Indianapolis.

DELAWARE Democrats deny the story of a conspiracy to unseat a Republican State Senator and prevent the election of a Republican United States Senator. There was some talk of such a movement, but it has been abandoned because there would be no profit in viciously kicking against the party in power.

THE salaries paid to federal officials and employes in New York and Brooklyn aggregate over $5,000,000 per year. All this has been going to Democrats for four years. There is not a living Democrat who will ever get another chance at the federal treasury—not one. The Republicans have come back to stay.

TAMMANY wins 19 fat city offices by the election of Grant, all of which will be vacant after the 1st of May next. One of these pays a salary of $25,000 and fees; one, $12,000; five, $8,000 each; nine, $5,000 each; two, $4,000 each, and one, $3,000. It is not remembered that so many luscious plums ever before fell into one Mayor's lap.

THE Democrats are getting uneasy in regard to Senator Blodgett of New Jersey. When he was elected by the aid of Republican votes, it was generally understood that his Democracy was not sufficiently strong to make him ungrateful to his friends. Now it is feared that he will become a Republican Senator and dispense a portion of the federal patronage of New Jersey.

THREE more iron furnaces at Sharon, Pa., have raised the wages of their workmen. The advance is 15 cents a day. Such instances are getting common in every part of the North, and they go farther in answer to the free trade argument than all of the speeches and editorials ever printed. The workman can understand them without the help of a "campaign of intellect."

IN Birmingham, Ala., on election morning, a business man named Hillman bought $1,000 shares of Tennessee coal stock at 32. It has advanced to 36. Fred. Sloss, stove manufacturer, has contracted for a sixty-ton furnace, and other manufacturers have selected the sites for six new furnaces. The election of Harrison has boomed Birmingham. Iron is already selling at an advance of a dollar a ton.

EX-JUDGE RUCKER, a leading Democrat of Denver, asserts that Cleveland predicted defeat in his hearing October 27th. Among his reasons were: Hewitt was running for the purpose of beating him: Grant was absorbed in his own success; Tammany never liked him; Hill was too anxious to win also, and would trade him off. Rucker went straight home and gave the tip to his Democratic friends, who at once stopped betting.

THERE is no vindictiveness towards Canada among the earnest advocates of the rights of American fishermen. Senator Frye of Maine suggests that the way to settle the difficulty would be to ask Canada to name the privileges she wants in our ports, with the understanding that she accord the same to the United States in hers. This would not be retaliation, though Mr. Cleveland feared it would be asking too much of his Canadian supporters.

GREENE county gave 34 majority to Cleveland and Thurman, 51 to Lieut. Gov. Jones, and 181 to VanBergen, the Democratic nominee for County Clerk. But all the other majorities are on the Republican side. Here they are: Miller, Governor, 78; Rumsey, Appeals, 72; Knapp, Congress, 85; Walters, Assembly, 154; Sanderson, County Judge, 251; Stead, Sheriff, 203; Lacy, Superintendent of Poor, 54. Three Republican Coroners were elected. Now let Greene stand in the Republican column.

E. W. HALFORD, managing editor of the Indianapolis *Daily Journal*, who is evidently the coming Private Secretary of President-elect Harrison, has been upon the above paper for many years. Previous to that time he was editor of the Chicago *Inter-Ocean*. He is short in stature, a brainy man and good fellow. He rose from the "case," and by very hard labor got a collegiate education. He belongs to the Methodist church and has taken an active part in church work. Everybody in Indianapolis calls him "Lige Halford."

CITY OF MADRID NOW QUIET.

Authorities Have Issued an Order Prohibiting Street Assemblies—Fight With Horse Thieves in Indian Territory—Crimes, Etc.

By Telegraph to The Freeman.

NEW-YORK, Nov. 12.—The steamer Iberia, which was badly injured by collision with the steamer Umbria, has disappeared from the surface of the ocean. It seemed in no imminent danger of sinking when it was abandoned yesterday, but tug-boats searched the coast along Long Island, from Fire Island to Coney Island all night and could find no trace of it. They went down again this forenoon, but it is generally believed the Iberia has sunk. The Umbria again left port this forenoon fully recovered from the shock of the collision. The big hole in the bow was covered by a big iron plate.

The tug Indian this afternoon reports that the steamer Iberia sank last night off Long Beach at 9 o'clock.

FARMERS FIGHT HORSE THIEVES

Who Had Stolen All the Animals in Morton County, Indian Territory.

By Telegraph to The Freeman.

TOPEKA, Kans., Nov. 12.—Horse thieves are committing depredations in the Indian Territory. Twelve desperadoes, headed by the outlaw William Doty, stole 13 thoroughbred horses from Captain Milton, of Morton County. They visited every ranch in the County and took possession of every horse of value. When they reached the farm of James L. Horton he and his two sons showed fight, and with their guns made it very warm for the Doty crowd. The desperadoes were too much for them, however, and captured the men and tied them to a fence, where they were found four hours later by friends. The thieves secured 60 horses and started for Oklahoma. They had gone but a short distance when they were overtaken by a posse of Morton County farmers. A desperate fight ensued, during which George Hill, one of the thieves, was fatally wounded. Doty and his crowd were compelled to take flight, but managed to get away with 25 animals.

By Cable to The Freeman.

ROME, Nov. 12.,—The *Escito Italiano* [War Office organ], in an article on the relations between France and Italy, signed by the editor, a high authority in military matters, says: "Both France and Italy, with perfect good faith, protest that they do not intend to make an attack. Nevertheless war is inevitable on the first occasion. France must sooner or later endeavor to break the iron band in which the unity of Germany and Italy has bound her. Let no one blame her for such an effort. Italy cannot do otherwise than continue in alliance with Germany, because the success of the French arms facilitated, Italian neutrality would soon be bitterly felt by Italy."

Doing such an extensive business as we do, it affords us every opportunity of offering you reliable goods fully 20 per cent. lower than they can be purchased elsewhere.

Small houses may make the same brag, but don't you think dealing with a large and reliable one price house like ours, where you can find everything you ask for, a safer and cheaper place to deal?

Try us and be convinced.

WASHINGTON, Nov. 12.—*Indications for Tuesday: Fair and a slight rise in temperature, westerly winds.*

THE FUTURE OF THE REPUBLIC.

The *Sun* reproduces the interview with Senator Ingalls of Kansas, which it first published early in October, on the coming greatness of the American republic. The Senator's views have grown greatly in value by the election, which has settled several questions vital to the growth and destiny of the nation for at least a quarter of a century, and probably for all time. Hence they will be received with an interest which could not possibly attach to them a month ago, when a general impression prevailed that the re-election of President Cleveland was possible and even probable.

The Senator began by quoting Stephen A. Douglas's memorable expression, "an ocean bound republic." He said the idea was as old as Jamestown and Plymouth. It was the cargo of the Mayflower. Obedient to its impulse, the column of Anglo-Saxon migration has marched across the continent, expelled the Indian, the Frenchman, the Spaniard and the Chinese, and now pauses on the coast of the Pacific. Having abolished the Western frontier, it will now move toward the pole and the equator. We have reached the limit of arable land, and in ten years the homestead system will be extinct. The pressure of surplus population will soon absorb Mexico and Canada, and possibly the West Indies. We have paid duties enough on sugar in the past thirty years to have purchased Cuba from Spain three times over. Besides, the surplus African population will require an outlet toward the torrid zone before the close of the century. The Senator holds that the whites and blacks of the South will not assimilate, and hence there will be an eventual separation, the negroes establishing states of their own in the tropics. "We have now a continuous line of railway to Mexico. It will soon be continued to the valley of the Amazon. Vestibuled trains will run through without change from New York to Buenos Ayres. Along this line the Anglo-Saxon race will move to the domination of the hemisphere."

The process of absorption, in the Senator's opinion, will begin with Canada. He looks upon Canada as already practically American, in full sympathy with the United States. He regards the policy of retaliation as impossible, because neither the United States nor Canada desires to be offensive. But England he regards as the enemy of both. We quote:

The umbilical cord between England and Canada was long since severed. The autonomy of the Dominion is complete. The intrusion of England in the policies of this continent is an intolerable impertinence. It is dictated by deliberate hostility to the United States. It is a studied affront which our people understand and will ultimately resent. Talk as we may about kindred blood, and the language of Milton and Shakespeare, there is not an American who does not feel instinctively that England is the only enemy we have among the nations, and sooner or later we shall be compelled by self-respect, if not for self-preservation, to obliterate every vestige of British power from this hemisphere. There is no alternative. The guns of Halifax and Vancouver are pointed at us. The Canadian Pacific Railroad, built by England's subsidies, makes our northern frontier more vulnerable than our seacoast. Great Britain, jealous of our supremacy, is inexorably opposed to our territorial expansion toward the pole and the equator. Her circumvallation is complete. Her navy stations and fortresses menace us from every point of the compass. From the close of the Revolution till now her conduct toward us has been characterized by treachery, duplicity, and insult in peace, and by brutal ferocity in war. Left to the operation of social, industrial, and commercial forces, Canada would irresistibly gravitate into the American Union. The ultimate coalition is inevitable. It may be violent and compulsory. If British men-of-war continue to haul down the flags of American fishermen without protest in waters of which England has practically no more jurisdiction than the United States have in the Mersey or the Thames, the issue will pass beyond diplomacy, and our volunteers will march on Montreal and Quebec and take possession of the Canadian Pacific and the St. Lawrence. The chief political obstacle would be found in the fact that Canada would naturally be Republican. Wheat was raised last year in the valley of Peace River, a thousand miles north of St. Paul. The great arable plains and rich intervales would attract populations like that of Dakota, incapable of adopting Democratic heresies.

These words were uttered before the election, when the Democratic party loomed up as an insurmountable obstacle. That obstacle is now overcome. Mr. Cleveland in the quiet of his retirement from political activity, will read these prophesies of national greatness, and perhaps regret that he did not begin with the acquisition of Cuba, which could have been paid for out of the treasury surplus, and would have created a reliably Democratic state with the area and population of Tennessee. It is now too late; Cuba must come in, if at all, with a Northern state or two to balance her politically. But there is one truth which every wide-awake statesman ought to make a note of. Territorial absorption is going to be an attractive issue with the American people so long as there are within convenient reach great states of similar language and people, or whose climate, soil and productions would sufficiently attract the people of the United States to bring them within a reasonable time under the domination of American ideas.

THE VICTORY AND THE CENSUS.

In estimating the benefits to the country of the sweeping Republican victory of Tuesday last, the fact is not to be lost sight of that the federal census is to be taken in 1890. It will be taken under Republican direction. The census of 1880 was under the direction of Gen. Francis A. Walker, a professed Republican, but a rabid free trader who afterwards developed into a Mugwump. The honesty of that census has always been suspected, for the reason that it gave to the South a greater per centage of the increase than to the North. South Carolina gained more than New York, Texas more than Minnesota, and Arkansas more than New Jersey. Rural states of the South, desolated by the war, and several of which did not contain a single town of sufficient size to raise it to the dignity of a city at the North, were accorded a larger population, and hence a greater proportionate representation in Congress and the Electoral College, than some Northern states which had doubled and trebled their manufacturing capacity during the preceding decade. This fraud alone sufficed to elect a Democratic President in 1884 and to give the South control of the House for six years.

All of this is to be changed. The census to be taken in 1890 will be under Republican direction. Each state will be given credit for its entire population, but nothing more. The wrong inflicted upon the country by giving the Solid South, or less than one-third of the Union, an increase of 15 members in a total increase of 32 will be made right. The great Northwest has been growing rapidly, while the old Bourbon states have stood still. The census will change the proportionate representation of the North and South by at least ten votes in favor of the former.

This change is to take place in the existing states, and chiefly in states like Kansas, Nebraska, California, Iowa and Oregon—states so solidly Republican that it would be impossible to gerrymander a Democratic district out of them. To this is to be added the representation in both Houses of Congress and the Electoral College from at least seven new states, equally solid in their Republicanism. The census will be completed in 1890, and the new apportionment will be made by the fifty-first Congress, already elected, in the session of 1890–91. It is not to go over and be left to the chances of a new Congressional election in 1890.

If the Republicans can hold their present majority of 20 or more in the coming House from the existing districts, the accessions by a new apportionment, by gains in the new South and by the admission of new states, will carry that majority up to 60 in the fifty-second Congress. If it can hold New York in the next Presidential election the Republican successor of Benjamin Harrison can be reasonably assured of a two-thirds majority in the Electoral College. The new states will of course give the Senate to the Republicans by an overwhelming majority. And these new states, added to those which now elect Republican Legislatures, will make possible some very necessary amendments to the constitution. It is possible, especially, that Article 14, Section 2, can be made clearer than it is. If the colored people of the South are not allowed to vote, it is important that the basis of representation should be reduced by excluding the entire colored population, or else by basing representation upon the vote cast, instead of upon the census.

AN EFFECT OF THE ELECTION.

Wages in the iron works at Sharon, Pa., have been raised ten cents a day since election. Sanford's carpet works at Amsterdam, which had been closed for three months, have started up on full time, and 2,000 hands are called back to work. Preparations are being made for starting up the blast furnaces in Hocking Valley, Ohio, which were all closed immediately after Cleveland sent his free trade message to Congress in December. The capital thus locked up for nearly a year amounts to $1,500,000. Business is starting up all over the country.

THERE IS FUN IN THE LAND.

The New York Sun Quotes From the Cyclopedia for Mr. Cleveland's Consolation.

The New York *Sun* of this morning gets back upon Mr. Cleveland for making up his "swing-around-the-circle" speeches from Mr. Dana's Cyclopedia a year ago. There is enough appositeness in these selections to cause even a Democrat to smile. The heading over them is "Select Readings for the Hour," and they are given the post of honor at the top of the *Sun's* editorial column:

The entire layer of adipose tissue beneath the skin and elsewhere acts as a protection to the animal warmth. Being to a great extent a non-conductor, it is a kind of natural blanket, which prevents the dissipation of the heat of the internal organs, and thus serves to maintain their temperature. An abundant layer of adipose tissue is accordingly an effective protection against external cold.—*The American Cyclopedia, Vol. I., page 120.*

Immediately after the inauguration of Mr. Lincoln, March 4, 1861, Mr. Buchanan retired to his home at Lancaster, Pa., where he passed the remainder of his life, taking no part in public affairs.—*The American Cyclopedia, Vol. III., page 382.*

The rhythm of evolution and dissolution completing itself during short periods in small aggregates, and, in the vast aggregates distributed through space, completing itself in periods which are immeasurable by human thought, is as far as we can see universal and eternal; each alternating phase of the process predominating now in this region of space and now in that, as local conditions determine.—*The American Cyclopedia, Vol. VII., page 17.*

Mr. Fillmore afterward resided in Buffalo, taking no prominent part in public affairs.—*The American Cyclopedia, Vol. VII., page 188.*

Persons who have an unusual tendency to fat should combine with other exercise running, jumping on the spring board, and movements which shake the body. These favor the absorption of unnecessary adipose tissue, especially in the covering of the abdominal organs.—*The American Cyclopedia, Vol. VIII., page 355.*

On March 4, 1825, Monroe retired from office, and returned to his residence of Oak Hill, in Loudon county, Va. He was chosen a Justice of the Peace, and sat in the county court.—*The American Cyclopedia, Vol. XI., page 763.*

Immediately on the expiration of his term of office he left Washington, without even stopping to be present at the inauguration of Jefferson, against whom he felt a sense of personal wrong, probably thinking that he had been deluded by false professions as to Jefferson's views on the Presidential chair. Fortunately for Adams, his thrifty habits, sustained by the economical and managing talents of his wife, had enabled him to add to the savings from his profession before entering public life, savings from his salaries enough to support him for the rest of his life in a style of decent propriety. All considerations, domestic or otherwise, at Mr. Adams's command, were fully needed. Never did a statesman sink more suddenly, at a time when his powers of action and inclination for it seemed wholly unimpaired from a leading position to mere absolute political insignificance. His grandson tells us that while the letters addressed to him in the year prior to March 1, 1801, may be counted by thousands, those of the next year scarcely number a hundred, while he wrote even fewer than he received. Nor was mere neglect the worst of it. He sank, loaded with the gibes, the sneers, the execrations even of both political parties into which the nation was divided. A large portion of the most active leaders of the Federal party were disposed to hold Adams personally answerable both for the breach in their ranks and for their subsequent overthrow.—*The American Cyclopedia, Vol. I., page 93.*

In the United States of America there has never been a censorship of the press.—*The American Cyclopedia, Vol. IV., page 192.*

Much unnecessary anxiety is sometimes felt with regard to the possibility of persons supposed to be dead, being buried while really living. The premature burial of a living person must be, if it happen at all, the result of inexcusable haste or carelessness, and is in the highest degree improbable when ever the ordinary precautions are taken. A proper examination of the body by a competent medical man, in doubtful cases, would render such a mistake almost impossible.—*The American Cyclopedia, Vol. III., page 454.*

COMMON SENSE

Should be used in attempting to cure that very disagreeable disease, catarrh. A catarrh originates in impurities in the blood, local applications can do no permanent good. The common-sense method of treatment is to purify the blood, and for this purpose there is no preparation superior to Hood's Sarsaparilla. That this peculiar medicine does cure catarrh is shown by the many testimonials from people who have found relief upon using it when all others had failed. A book containing statements of cures sent on receipt of two-sent stamp, by C. I. Hood & Co., Lowell, Mass.

I have been a sufferer from catarrh for the past eight years. Having tried a number of remedies advertised as "sure cures" without obtaining any relief, I had resolved never to take any other patent medicines, when a friend advised me to try Ely's Cream Balm. I did so with great reluctance, but can now testify with pleasure that after using it for six weeks I believe myself cured. It is a most agreeable remedy—an invaluable Balm.—Joseph Stewart, 624 Grand-avenue, Brooklyn.

DON'T DESPAIR.

If you are weak and weary from some so-called chronic disease, don't give up. Sulphur Bitters has given hope to many invalids, where hitherto there was nothing but despair. It will build up and renew your whole system.—Editor Weekly American.

THE REV. GEO. H. THAYER, of Bourbon, Ind. says: "Both myself and wife owe our lives to SHILOH'S CONSUMPTION CURE." Sold by Frederick J. R. Clark.

INSTINCT IN BRUTES.

Few things are more wonderful than the instinct that guides the brute in the choice of its food and medicine. In India the mungoose, when bitten by the deadly cobra, is said to seek among the grass for some unknown herb or substance, which it swallows, and is thereby enable to counteract the effect of the poison. Man, when his system is deranged by the accumulated poisons engendered by constipation or sluggish action of body, should seek relief in Dr. Pierce's Pleasant Pellets, which will at once establish a permanently healthy action of the liver, stomach and bowels.

SICK WIVES AND DAUGHTERS.

You have often seen them with pale faces, poor appetite, head and back ache, symptoms common to the sex. Fathers and mothers lose no time in securing Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y.

It will cost only one dollar and is much cheaper than sickness.

If your druggist does not keep the medicine, address the proprietor, Rondout, N. Y.

Do you suffer with catarrh? You can be cured if you take Hood's Sarsaparilla, the great blood purifier. Sold by all druggists.

SALLOW WOMEN.

The Terrible Cause of Poor Complexion, Bad Health and Lack of Life Explained.

"Why is it that so few American women have good complexions?" asked Mrs. Langtry on her first visit to America. Her question can be easily answered. Women are sallow because the blood does not circulate well through their bodies. It does not fill their cheeks with rich color and their eyes with brilliancy. It is "sluggish." What is the result? Bad color, weariness and poor health. What will prevent this? A gentle and pure stimulant that imparts strength, life and good circulation. This is precisely what Duffy's Pure Malt Whiskey does. It is not a beverage it is a health-giving remedy. It is admitted to have done more in making ladies stronger and healthier than any other preparation known to the world. It has the endorsement of clergymen, physicians and lady workers in the temperance cause, and it has never been known to fail in strengthening, restoring and benefiting. A well known lady, writing on this subject, said:

"I can never describe the change that has taken place in my appearance and in my feelings. Instead of feeling tired and 'blue' as I once did, I am now strong and young, both in feeling and appearance. I had a great prejudice against the word 'Whiskey,' but since I have found that Duffy's is indeed a pure and harmless remedy, I feel like letting all women know what a grand help it is."

The experience of this lady has been verified in thousands of cases, and an innumerable number of women are kept in perfect health to-day wholly through this great remedy. To all purchasers we desire to say: "be sure and secure the genuine, and take no other." It is sold everywhere.

It may do so and on the other hand, by neglecting it, one may lay the foundation of some incurable pulmonary or throat trouble. Dr. David Kennedy's Cherry Balsam will relieve the cough almost immediately and prevent its becoming seated. Those whose business obliges them to travel and who labor more or less under chronic, consumptive or bronchial coughs should not fail to carry with them a bottle of Dr. David Kennedy's Cherry Balsam, taking it occasionally in small doses as they may feel the need. The cough will abate almost on the instant and the breathing and expectoration become more easy and free. It soothes any sense of irritation that may exist, subdues inflammation or soreness in the lungs throat and air passages, and prevents attacks which are always embarrassing and may prove serious during an absence rom home. No other preparation offered to the public possesses anything like the power of this one over these common and dangerous complaints. To all right feeling persons it is a privilege as well as a duty to provide for the comfort of the aged parents or other relatives who live with and depend upon them. A valuable help in this direction is Dr. David Kennedy's Cherry Balsam, which is more perfectly adapted than anything else to quiet and cure the winter cough to which so many old people are subject. Whether the cough arises from some chronic trouble or from mere feebleness and lack of vitality this gentle and safe medicine is equally effective.

DUFFY'S PURE MALT WHISKEY

A SCIENTIFIC REMEDY,

—NOT—

A BEVERAGE.

No disease germ can possibly remain lodged in the body if this great remedy is carefully and constantly used. Prof. Wm. T. Cutter, State Chemist of Connecticut, says:

"I have analyzed a great many samples of Whiskey, Wines, Ales, etc., and was surprised to find, upon analysis, that Duffy's Malt Whiskey was absolutely pure as I never found this to be the case in any other Whiskey I had examined. These facts must commend it to general use and public favor."

Be sure and secure the genuine and take no other.

MISSOURI COAL MINE RIOT.

Pitched Battle Between Strikers And New Men.

THE KNIGHTS OF LABOR.

Successor to General Master Workman to be Selected.

EAST AFRICAN AFFAIRS.

Fourteen Hundred Runaway Slaves Have Taken Refuge in Three English Mission Stations—Extent of the Blockade—Facts.

By Telegraph to The Freeman.

KANSAS CITY, MO., Nov. 12.—A riot occurred at the coal mines at Bevior, Mo., Saturday night. A strike has been prevailing there for some months, and there have been frequent rows between strikers and new men. A short time ago a number of Swedes were engaged to take the places of strikers, and Saturday night a pitched battle took place. A. J. Anderson, a Swede, was shot through the breast and killed, and three other Swedes were slightly wounded. It is rumored that one striker was killed, but this is not confirmed. Over 100 shots were fired, and a number of houses were pierced by bullets. The situation is critical, and the militia will probably be called out. Thomas Wardell, owner of the mine, was shot and killed by a mob of strikers six months ago.

DISPOSAL OF RUNAWAY SLAVES

Now Presents a Grave Difficulty in Zanzibar—1,400 Discovered.

By Cable to The Freeman.

ZANZIBAR, Nov. 12.—The blockade, which has been sanctioned by the Sultan, has been deferred for a week at the request of the British Consul in order to give time for the withdrawal of the English Mission at Mogila. A searching official inquiry has revealed the fact that about 1,400 runaway slaves have been taking refuge in three English mission stations adjoining Mombossa, 900 being in the Church at Raboi. Many have been concealed for years, and all had been promised freedom. Their disposal now presents a grave difficulty. The discovery of these slaves explains the persistent opposition of the Arabs to the missions. The authorities of Frere Town were ignorant of this gross abuse. It is rumored that the Arabs have expelled the Portuguse from Minengani and Funghi Bay.

BERLIN, Nov. 12.—The blockade of the East African Coast will extend from Cape Gardafui or Massowah to Madagascar. The German squadron will be increased by three vessels. It is possible that Prince Henry will command the fleet. It is now stated that the Plantation Company will enlist men in the Dutch East Indies. It is believed the Government contemplates a similar plan in case the blockade is not sufficient.

BERLIN, Nov. 12.—A meeting of representatives of all the interests concerned in the East African movement will be held at Cologne, on Wednesday, to discuss the question of recruiting a colony force. The decision will be submitted to the Government. The German press, with the exception of the Liberal and Radical organs, favor the movement.

KNIGHTS OF LABOR GENERAL ASSEMBLY

To Convene To-Morrow—Interest in the Election of Officers Intense.

By Telegraph to The Freeman.

INDIANAPOLIS, Nov. 12.—The eleventh annual session of the General Assembly, Knights of Labor will convene here to-morrow. The session promises to be one of the most interesting in the history of the organization. One of the points around which a contest will center will be the election of a General Master Workman, also an Executive Committee and full list of general officers. Mr. Powderly has repeatedly stated that he would not stand for re-election, but his intimate friends declare he is the only man in whose hands the order can be safely trusted, and it is known that they will insist upon his accepting the leadership another term. It is claimed he can be re-elected if he is willing to accept. Indications, however, point to a vigorous contest, as Thomas Barry, C. W. Carlton, J. P. Buchanan and other leaders of the opposition will be present in force. It remains to be seen upon which side Charles L. Litchman, late General Seretary of the order, will throw his powerful support.

MARLBOROUGH MEN AND WATTERS,

Overcome by Gas—In Interest of Tax Payers—Debating Club.

The Warren building is nearly completed.

The Lattintown public school is largely attended.

C. D. Bloomer has been beautifying his property.

Marlborough ladies are living in fear of burglars.

The upper railroad crossing is in excellent condition.

Landing-street is fast sinking toward the river bottom.

A lodge of the Sons of Temperance will be instituted here.

South-street, known as "African Lane," will be repaired.

James Bush has sold his fruit farm to Howard Berean.

The Marlborough Knitting Mill is being run on full time.

The Ketcham Post Band has several engagements booked.

Many novel election bets have been paid here since Tuesday.

A Retail Dealers' Protective Association will be organized here.

Election returns were read in the Exchange Hotel on Tuesday night.

The school house in the West Neighborhood needs to be enlarged.

The Union Thanksgiving Day service will be held in the Presbyterian Church.

A local debating club will discuss "Tariff Reform" at a meeting soon to be held.

Fruit-growers hereabout are engaging next season's supply of gift shipping packages.

The Republican local Presidential campaign was economically and successfully managed.

A large cargo of builders' material was unloaded at Millard's dock on Tuesday forenoon.

Miss Julia Williams has been seriously ill at her home in Port Richmond, Staten Island.

Sands Haviland is pleased with his experiment in the building of a patented fruit house.

Advance Lodge of Odd Fellows, in this village, is the strongest lodge of the order in this district.

The Ladies' Missionary Society met in the chapel of the Presbyterian Church on Saturday afternoon.

The Marlborough Literary Society and the Marlborough Choral Union are two creditable organizations.

The Misses Elizabeth and Eva Lockwood were overcome by gas escaping from a stove in a bed-room in their home on Thursday night.

The town bills will not be as large this year as in former years. Supervisor Woolsey has been indefatigable in his efforts to govern the town in the interest of the tax-payers.

A number of fruit-growers in Marlborough are satisfied that an association that is largely devoted to the advancement of the interests of straight-line farming does not benefit their business, hence they are determing the wisest plan, that, when carried out, will result in the organization of an Ulster County Fruit-Growers' Association.

John Moorhead is a pains-taking and economical town officer. His bill as Overseer of Town Poor was the smallest ever passed upon by a Marlborough Board of Audit. It was shown that Mr. Moorhead had so managed the affairs of his office that he was indebted to the town for an amount of money. The Town Board, in settling his accounts, passed a complimentary resolution thanking Mr. Moorhead for the economical management of his office.

SPECIAL BUSINESS NOTICES.

"What is the whole duty of a married man?" asks the new conjugal catechism: To be agreeable to his wife and keep Dr. Bull's Cough Syrup in the house for the children when they get a cold, of course. Ask us something hard.

W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my twenty years' experience is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. "WE POINT WITH PRIDE"

To the "Good name at home," won by Hood's Sarsaparilla. In Lowell, Mass., where it is prepared, there is more of Hood's Sarsaparilla sold than of all other medicines, and it has given the best of satisfaction since its introduction ten years ago. This could not be if the medicine did not possess merit. If you suffer from impure blood, try Hood's Sarsaparilla and realize its peculiar curative power.

AN ALABAMA EPISODE.

"Trying to do business without advertising," says an exchange, "is like winking at a girl in the dark. You may know what you are doing, but no one else does." Trying to cure bilious fever, dyspepsia and torpid liver without using Tutt's Pills, is shooting in the dark. Marie Hock, prima donna of the Thalia Theatre, N. Y., says: "Tutt's Pills is the best medicine I ever used for sick-headache and biliousness."

CARD OF THANKS.

If the proprietor of Kemp's Balsam should publish a card of thanks, containing expressions of gratitude which come to him daily, from those who have been cured of severe throat and lung troubles by the use of Kemp's Balsam, it would fill a fair-sized book. How much better to invite all to call on any druggist and get a free sample bottle that you may test for yourself its power. Large bottles 50c and $1.00.

$500, OR A CURE.

For many years the manufacturers of Dr. Sage's Catarrh Remedy, who are thoroughly responsible financially, as any one can easily ascertain by enquiry, have offered, through nearly every newspaper in the land, a standing reward of $500 for a case of chronic nasal catarrh, no matter how bad, or of how long standing, which they cannot cure. The Remedy is mild, soothing, cleansing, anticeptic and healing. Sold by all druggists, at 50 cents.

WHY WILL YOU cough when Shiloh's Cure will give immediate relief. Price 10 cts., 50 cts. and $1. Sold by Frederick J. R. Clark.

EVERYBODY LIKES

to be called handsome, especially the young ladies. But that is simply impossible as long as their face is covered with pimples, blotches and sores. But wait, there is no need of this; one or two bottles of Sulphur Bitters will remove all such disfigurations, and make your face fair and rosy.—Fannie Bell, Editress.

"TAKEN IN."

"I used often to read the newspaper aloud to my wife," said Bert Robinson, "and once I was fairly taken in by a patent medicine advertisement. The seductive paragraph began with a modest account of the sea serpent, but ended with setting forth the virtues of a certain Dr. Pierce's Golden Medical Discovery which, it was alleged, was a sure cure for all throat and lung troubles and would even cure consumption, if taken in time. The way I was taken in was this: I had a lung trouble and I bought a bottle of the remedy. I was a stranger to it and it took me in—and cured me.

A NASAL INJECTOR free with each bottle of Shiloh's Catarrh Remedy. Price 50 cents. Sold by Frederick J. R. Clark.

DR. DAVID KENNEDY,

Discoverer and Proprietor of Cherry Balsam, is not in a position to risk his reputation upon the success or failure of any preparation as to whose merits a single doubt exists in his own mind, and in recommending the Cherry Balsam for Coughs, Colds, Asthma, Bronchitis, and all bronchial pulmonary affections, he does so with the greatest confidence, having had the most gratifying results follow the use of Cherry Balsam, which he has prescribed for a long time in his private practice. The value of this preparation cannot be overestimated, and even were Dr. Kennedy's own assurance incredible the testimony of the hosts who have used it cannot be impeached. Cherry Balsam will prove effective in many cases of Incipient Consumption; also in Bronchitis and Asthma, where other preparations have not even afforded relief.

It is prompt in its effects, and is therefore a most reliable medicine to use in all complaints such as Croup, Whooping Cough and Hoarseness. A careful trial of Cherry Balsam will prove its superiority over similar preparations.

FOR WOMEN.

Are you wasting slowly but surely away from the effects of female weaknesses? Are you wan, pale, and nervous? Do you not sometimes feel that life is losing its attractions, and that you are gradually sinking into a decline which, if not taken in hand promptly, will end in an early death? Yes, you have felt all these things, and doubtless know that tens of thousands of once rosy-checked, plump, healthy girls and women go into their graves every year solely because these weaknesses were allowed to sap up the well springs of life till nature could no longer stand the strain. There is not a sensible maid, wife or mother who will not appreciate as more valuable than gold and precious stones Dr Fontaine's new remedy PALMETTO, which is safe, sure, and speedy in curing the worst case of female weakness.

Mailed secure from observation on receipt of $1.00 I also have a full line of elegant Toilet Goods, including Face Cream and Jellies, Wrinkle Paste Fattening Formula, Auburnine, Depilatory, Acnine, Freckle Lotion, etc. Development of a beautiful form a specialty. Sealed circulars, 4 cents.

The Rev. C. W. Millard, formerly Pastor of the Rondout M. E. Church, has made many friends in Morrisania since he became Pastor of the Methodist Church at Washington-avenue and One Hundred and Sixty-sixth-street, there. In speaking of Mr. Millard's preaching the *New-York World* says: "His style is elegant and finished, and his dramatic delivery reminds some of his admirers of Henry Ward Beecher."

The Rev. Dr. A. G. Vermilye, of New-York, preached in the First Reformed Church, Kingston, Sunday, to a large congregation. Mr. Vermilye, before beginning his discourse, referred to the fact that just after he left the Seminary he occupied this pulpit for several weeks. This was prior to the beginning of Dr. J. C. F. Hoes's pastorate of this Church. Mr. Vermilye said that from that time until this he had never been in the pulpit. When he looked over the congregation, he missed a number of faces and was reminded that many years had passed.

MINOR NOTES AROUND THIS TOWN.

Facts, Fancies and Gossip Heard by Reporters Here This Day.

Mrs. Thomas H. Houlihan, of Liberty, is visiting relatives in Kingston.

What is called "sauer-kraut cabbage" was sold in Rondout to-day at $1 per 100 heads.

Owing to recent heavy rains much mud has accumulated on the streets of this City. On Union-avenue, to-day, Street Superintendent VanGaasbeek, with a number of men, horses, wagons, etc., were employed carting away mud and dried leaves.

EXPECTED IT WILL BE A SUCCESS.

A System of Sewerage at One Time Advocated for this City.

The system of sewerage, at one time advocated for this City, has been adopted in the town of East Orange, N. J., and it is expected it will be a success. The system is what is known as the small pipe flush tank separate system. The sewage is carried through laterals into main pipes and then by means of flushing with automatic flush tanks, carried out of the village into a large receiver, where it is deodorized. The liquid matter passes off, the solid matter settles to the bottom, is collected and used as a fertilizer. It is claimed that the sale of this fertilizer will furnish a sufficient revenue to pay the cost of running the works. The system in East-Orange is calculated to dispose of the sewage of a population of 60,000. Whole cost is $370,000. In this separate system of sewerage storm water does not run into the pipes. The pipes being small continual flushing with water has the effect of keeping them thoroughly cleansed. It does away with the objection of emptying sewage in fresh water streams. The system, it is claimed, could be used to great advantage in this City, especially in the upper portion, the formation of the ground there being well calculated to make it successful.

RECENT DEATHS AND FUNERALS.

Demise of an Old Man—Interment in Kingston this Afternoon.

James M. Fern, of Monroe, Orange County, died recently at the age of 86.

Julius Conner, of Scotchtown, Orange County, died, one day recently, of typhoid fever.

The funeral of William H. Dumont, of Kingston, took place, this afternoon, from the family residence on Clinton-avenue. Many relatives and friends were present. The Rev. J. L. Davis preached the funeral sermon.

Samuel Purdy, father of P. V. L. Purdy, died at his home, in Milton, on Wednesday forenoon, aged 85 years. The funeral services were held in the M. E. Church, Friday afternoon. Mr. Purdy was the oldest resident in Milton, prior to his death.

A Musical Kitten.

During a rehearsal of the Kingston Philharmonic Society, recently, the singing seemed to fascinate a little black kitten. Where this kitten came from no one knew. It was first seen lying stretched out on a pile of books of the "Oratorio of the Creation." During the singing it was all attention, ears erect and eyes wide open. At recess it went to sleep, but the moment the singing was renewed it again took its position of rapt attention. This kitten certainly has an appreciative ear for good music.

Now Wears Eye-Glasses.

A Kingston merchant sold a countryman a suit of clothes Saturday for $12.50. The countryman tendered a $5 gold piece in payment. The merchant mistaking it for a $20 gold piece, gave his customer $7.50 in change. Later when the mistake was discovered a search was made for the man. When found he said he thought he had a good deal of money left, but it did not enter his head that a clothing dealer would cheat himself in making change. The merchant now wears a pair of eye glasses.

Amusement Notes.

The Baldwin-Melville Combination will open a week's engagement at Kingston Opera House to-night in the drama of "Queen's Evidence."

At Liscomb's Opera House, Rondout, to-night, the Francesca Redding Company will open a week's engagement with a four act drama entitled "Maritaner, or, the Soldier of Fortune."

Saw a Meteor Drop.

On election night a Kingston man says a large meteor was seen to drop from the sky toward the Overlook Mountain.

Promised for Tuesday:

Fair weather, slight rise in temperature, westerly winds.

ELECTION DAY ECHOES

HEARD IN THIS CITY AND OTHER PLACES NEAR BY.

Preparing for the Salt River Expedition—"National Surprise Party"—Celebrating the Victory Along the Hudson—"Mum Sociables."

Rondout Democrats are still holding "mum sociables."

The proposed Republican parade in Rondout on Wednesday night has been abandoned.

The steamboat Jacob H. Tremper, the officers of which, except the Purser, voted for Harrison and Morton, entered the Rondout Creek this forenoon with all its colors set, the walking beam "wrapped up in the American flag" and its gallows frame decorated with brooms. On passing Ellerslie the Tremper's whistle was blown in honor of the Hon. Levi P. Morton.

A Kingston man said to-day: "For my part, I don't believe in the good old times they talk so much about. I have a vivid recollection of the time when I first earned a suit of clothes by my own labor. I received 12½ cents a day. I worked hard and was tired when the job was fluished. I was paid in home-made cloth, and had this made in a suit of clothes. Think of working now for 12½ cents a day. Give me Republican rule and the benefit of protection."

Silas Wood, of Kingston, has been "making poetry" on the good time coming under Republican rule. The following is a sample verse:

O now the hens begin to lay
And eggs go down from day to day.
You boil them soft, you boil them hard,
You season with butter and not with lard.
The hens do cackle,
The hens do lay,
The rooster crows from day to day.

Notwithstanding the slighting remarks made by the *Kingston Leader* on the Democratic tinsel brigade, known as the Continentals, the members of that body are so fascinated with their uniforms and torches that they have decided to continue the organization, to parade now and then, to the delight of Kingston boodlums. In addition to their campaign uniform they will wear mourning bands on their hats and left arms. They will take a prominent part in the Salt River expedition.

OTHER ELECTION ECHOES.

We have lost all interest in the Presidential election returns.—*Yonkers Gazette.*

The election of Harrison and Morton will be celebrated by Nyack Republicans to-night.

It seems Grover was not Thurman for the emergency after all.—*Yonkers Gazette* [*Democratic.*]

Republican clubs and organizations will celebrate the election of Harrison and Morton in many towns south of this City to-night.

Saugerties Republicans will celebrate the election of Harrison and Morton by making a parade on Tuesday night.

Rhinebeck people are pleased over the election of Martin Heermance to the office of District Attorney of Dutchess County.

A public school at Walden was closed on election day, so its Principal "could advance the cause of Prohibition."—*Goshen Democrat.*

The Democrats of Middletown who were compelled to listen to the tooting of fish horns by Republicans after election are in favor of dishorning.

The *Wappingers Chronicle* calls the result of the election a "National Surprise party." The *Chronicle* has a right to call the result whatever it chooses, but there are many people in this City who were not surprised, and they had faith enough to invest many dollars in wagers "on the general result."

J. Evert Wilson, a Newburgh Democrat, illuminated his residence when the Republicans celebrated the election of Harrison. Being asked why he did so, Mr. Wilson replied: "I am not illuminating in honor of the Republicans, but in honor of the President-elect. If General Harrison is elected Chief Executive of this Nation he is my President as much as he is of any other citizen. He was not my choice. I did not vote for him. Now that he is elected I can certainly do no less than light my residence up in his honor, and accept him as the choice of the majority of a free people. If I was as strong physically as I once was, I should not consider that I had done my whole duty as an American citizen if I did not join in the jubilee parade."

REPUBLICAN JUBILEE.

The Republican jubilee meeting held at Roxbury, Delaware County, on Saturday night, was a successful affair. About 600 men were in the procession. Clubs and gun squads from various places along the line of the Ulster & Delaware Railroad participated. Conspicuous among the cannons that boomed was that of the S. D. Coykendall Gun Squad, of Rondout. For a time it "rained cats and dogs," but that circumstance did not materially interfere with the demonstration. Enthusiasm ran high. There were many portraits of Harrison and Morton carried in the parade.

YES, WHY ASK?

[From the Newburgh Journal.]

"Where is my boy to-night?" asks the Prohibitionist. And the question is really sarcastic. Why ask? You know. And for three years more you can look for him in the same place. But you voted on Tuesday in favor of giving him just that place to go to. And not only your boy, but the boys of Republicans and the boys of Democrats as well, will have that same place of resort. When you hear of mothers weeping over drunken sons, and sisters pleading with wayward brothers, just remember that you could have so voted on Tuesday, that a very large share of this misery would have been prevented. Remember, you third party man, who voted in such a way as to help Hill, that you must bear the responsibility for knowingly sacrificing such a great opportunity as was offered you for promoting the great cause of temperance reform.

A Profitable Traffic.

[From the Downsville Times.]

The Delaware, Lackawanna Western, Ontario and Western and West Shore railroads are transporting milk over their lines by daily trains from points in Chenango, Madison and Oneida counties, 225 to 250 miles distant from New-York. Every season these and other milk carrying lines are compelled by the ever increasing demands of the city market to reach out into new milk producing territory for additional supplies. An extension of the traffic 100 miles north of its present bounds in central New-York would open up the productive milk region in Canada. The freight rates charged by the railroads for carrying the milk to market varies from 35 to 38 cents per 40 quart can. An ordinary refrigerator car will hold 280 to 300 cans. Each car, therefore, pays the company running it about $105 freightage per trip—a profitable traffic, even though carried on over long lines of transportation.

VARIOUS SPORTING MATTERS NOTED.

About the Kingston Driving Park—'Cyclers Blown Along by the Wind.

Large catfish are being caught in the Hudson River near New Hamburgh.

The strong wind that prevailed to-day in this City sent 'cyclers along six or seven miles an hour, almost without the riders touching the pedals. When they attempted to run in the opposite direction, however, it was "pushing" work.

The manager of the Kingston Driving Park will probably make use of the park during the winter for horse trotting on the snow. After a heavy fall of snow an excellent track can be made, and with little work kept in good condition during the whole winter. Those who wish to speed their horses can use the track instead of Albany-avenue without risk.

Full Calendar.

There was a full calendar at Ulster Surrogate's Court, Kingston, to-day.

Railroad Affairs.

The Erie Railroad Company is building 200 cars for the transportation of fruit.

AN OLD VETERAN GIVES AN OPINION.

Where Muzzle-Loaders Did Wonderful Execution—Rapid Firing.

A Kingston veteran said, to-day: "Great attention is being paid by military men to magazine rifles that will carry a small ball with great power of penetration. They are favorable to the small bore because the cartridges will be smaller and the soldier can carry more ammunition into battle on his person. It is my opinion that it is of much greater importance to teach soldiers to hit the object they fire at. If every soldier in an army is a good shot and can hit his mark twice out of three times, greater success will be had with a muzzle-loading rifle than with a magazine rifle that will fire away as fast as a man pulls a trigger, if he is not a marksman. The history of the past shows that where men were experts with the rifle the old muzzle loaders did wonderful execution. Take for instance the battle of Bunker Hill. The Americans with little more organization than a mob, successfully resisted two assaults of an army of trained British soldiers, killing and wounding half their number. The Americans were expert riflemen and they shot to kill. In the battle of New-Orleans the British, with 12,000 of the finest soldiers of the world, veterans of many battles, in a few minutes were put to rout by 3,000 undisciplined Americans because of the latter's their skill with the rifle. The British lost 2,600 killed and wounded, while the Americans lost eight killed and 13 wounded. During the war of the Rebellion the Confederates won several battles by their superior skill in handling the musket. The Confederates generally were good marksmen. Soldiers carry in battle 60 rounds of ammunition. A thousand men, therefore, can fire 60,000 shots. If these soldiers are as expert as our western cowboys in the use of their weapons, and can kill every third shot, they will slay an army of 10,000 men. Isn't it common sense to say it is of the greatest importance that soldiers should be expert with the rifle? What benefit is there in rapid firing if it does no execution? What benefit is penetration if the ball does not hit the object? If military men would set themselves to work to train soldiers in superior marksmanship, and less in fancy manœuvering, their armies would be more effective in actual warfare with or without a magazine rifle."

SOME PHASES OF THE SEAMY SIDE.

Bold Burglars who Entered a Store and Sleeping Apartments.

The burglars who entered the store of D. R. Elting on Bowery-street, Kingston, Friday night, were bold fellows. After going through the store, they went into sleeping rooms up-stairs and made a thorough examination for valuables while the occupants of the room were asleep.

BEFORE RECORDER HUSSEY.

Joseph Ascomb, an Austrian, of Whiteport, Ulster County, was fined $5 for intoxication.

Last night Deputy Sheriff Westbrook, of Kingston, arrested two men who gave their names as George Wallace and Alexander McKenzie, for "stealing a ride" on the West Shore Railroad from Newburgh to this City. The men said they were sailors. This forenoon Recorder Hussey sentenced them to 30 days each in the Ulster County Jail, Kingston.

IN JUSTICES' COURT.

A Rondout Justice of the Peace says politics has interfered considerably with business in his Court.

This morning Hiram Terwilliger, of Kingston, swore to a complaint against one John Grauss and wife before 'Squire S. S. Westbrook, Kingston. The complaint alleges that while a son of Terwilliger, aged seven years, was passing the residence of Grauss, on Summer-street, a large dog owned by Grauss sprang over the fence and bit the Terwilliger boy. The complaint embodies a notice directing that the dog be killed. This Mrs. Grauss, it is said, will not do, and a dog suit may be the outcome.

THE WOES OF UNFORTUNATES.

Nature Smites no Man
Without giving him notice. Yet we pay small heed to her solemn warnings. "Oh, it is nothing." "It will pass off presently." "I shall be all right in a day or two." These confident words are on our lips and we often believe what we say, even when the great crisis of our lives is standing at the door. In our subsequent agony, during the weary days and comfortless nights, we sigh and say: "Oh! if I had only known such a disease as this could come upon me I would have taken the proper remedy when the first sign of it appeared." Watch the signs. The languid, tired feeling, drowsness, shifting pains about the body, occasional chilliness, dry skin, variable appetite, poor sleep, lack of ambition, yellowness of the eyes, bad taste in the mouth, feelings of despondency and gloom without any especial reason, fears for the future, and in short any indication showing a want of your usual elasticity, strength, mental grip and cheerfulness in fighting life's battle—these things or any of them mean that your system is out of order and serious illness very near. You may check the onslaught of the enemy by at once employing a remedy whose wide reputation and success bespeak its virtues, Dr. Brown's Sarsaparilla. This preparation tones and regulates the digestion, stimulates the liver and kidneys, opens the pores of the skin, quiets the excited nerves and expels disease from the system.
Honorable Eugene Hale, U. S. Senator from Maine, says in a letter of recent date: "I have great confidence in Dr. Brown's medical sagacity and skill," and so have thousands who have been raised from sickness to health by
